REPORT.

Department of Internal Affairs,
Harrisburg, *December 1, 1890.*

To His Excellency James A Beaver,
Governor of Pennsylvania:

Sir: As required by the constitution and law, I submit herewith a detailed report of the business of the department for the year ending on the 30th day of November, 1890.

Respectfully submitted.

THOS. J. STEWART,
Secretary of Internal Affairs.

Money Received.

During the fiscal year ending November 30, 1890, there has been a fair increase in the amount of money received, both as purchase money and as miscellaneous fees. The fees received for the issuance of mine foreman's certificates have, however, been very much reduced. The other source from which fees are received is the copying of warrants, surveys patents and other documents. Compared with the reports of all the years since the reorganization of the department under the new constitution, the statement of work done during 1890 shows a very considerable increase. Following is a detailed exhibit of warrants and patent fees, purchase money, etc.:

STATEMENT—*Showing the number of warrants, patents and certificates to the State Treasurer, issued from December 1, 1889, to November 30, 1890, both days included, with the amount of purchase money and fees for warrants, patents, etc., etc. Also copying fees received during the same period.*

THE LAND OFFICE BUREAU.

In this bureau are filed the applications for vacant land, the duplicate warrants on which the surveys are made, the draft or return of the deputy surveyor, the deputies' lists, the returns of the Surveyor General to the Secretary of the Land Office, the records of the patents, the vouchers showing the payment of the purchase money, and all records regarding land titles in the commonwealth. The making of certified copies of these original papers, together with the consideration of the applications now being made for vacant land, constitute the work of this bureau. The increase in the amount of purchase money received during the year is to some extent due to the passage of the act of 1889 requiring the depositing of purchase money before caveats can be filed for preëmption rights, against the granting of warrants or patents to those who have applied for them by warrant and survey.

Vacant Land.

There have been about the usual number of applications for warrants to survey vacant land during the year. A large number of communications making inquiry as to whether there was any vacant land in the commonwealth for sale were received, and in all cases, when desired, the persons making inquiry were supplied with blanks to be used in making application for such unappropriated land, and at the same time they were advised that the state does not guarantee any land as being vacant; that the applicant must take the chances of there being an interference with older and vested rights. Any vacant or unappropriated land can be applied for by any one who will pay the purchase money and fees; but the question of vacancy, so far as the application is concerned, must be determined by the applicant. If a caveat is filed the question of vacancy or interference with older rights is passed upon by the Board of Property, consisting of the Attorney General, Secretary of the Commonwealth and Secretary of Internal Affairs. Their action, however, is not final; the courts have jurisdiction in all cases of original title whether passed upon by the Board of Property or not. The disposition of the public lands in Pennsylvania has differed materially from the plan pursued by the government of the United States. Usually the United States lands were surveyed before applications were received from purchasers, and the lines were clearly defined. Where they could not be in-

dicated by marking timber, they were defined by well-established corners, so that the applicant for government land knew before making application the exact limits of the tract and its general features. In the management of the land office of Pennsylvania, under the proprietaries and afterwards under the state authorities, a different policy was pursued. When application was made for land a warrant was issued upon the payment of the purchase money. The warrant was either descriptive or indescriptive—descriptive when it definitely determined the location of the land by the description given in the warrant such as calls for adjoiners or locations along streams; indescriptive when they simply authorized the deputy surveyor or Surveyor General to cause the number of acres called for in the application to be surveyed out of any unappropriated land of the commonwealth, no definite location being given. Most all of the warrants for land in the late purchase were indescriptive. In many cases the surveyors located warrants throughout the commonwealth according to the wishes of the applicants. In a very large portion of the territory no regular system prevailed as to the conformation of the tracts, and the warrants being executed by different surveyors (who in many cases ran only one or two lines of a tract), numerous interferences resulted and strips of vacant land between tracts were frequently left. As a result of this plan in the location of warrants the courts have frequently been called upon to settle land disputes, and in addition to this it is difficult to ascertain from the records here whether land applied for is vacant or not. Hence the department, the Surveyor General, and others in authority in the land office, do not assume to represent any land as being vacant, but leave it entirely to those who, after investigation, decide to pay the nominal price charged for unappropriated land and take the chances of a vacancy. The act of 1874 requires the publication of notice of the intention to apply for vacant land, and the notice must be published in a newspaper of general circulation nearest the location of the land applied for. This was undoubtedly intended to give all parties in the locality where the land is situated notice, so that if any claim should be made by virtue of older rights granted, claimants would have an opportunity to file caveats against the application and have their rights passed upon by the Board of Property.

The claims for vacant land, and the assertion of older or preëmption rights, bring many cases of disputes before the Board of Property for its judgment. They have also found their way to the Supreme Court for adjudication, and the opinions, decrees and records regarding the same make up the most intricate questions with which lawyers have to contend. Pennsylvania statutes and Supreme Court decisions on land laws are far famed, and it may be said there are few lawyers who are prepared to meet all the legal questions that arise in an ejectment case where original titles are in question.

Copying of Old Records.

The copying of old surveys and other valuable papers has progressed but little, owing to the necessity of employing the force of the department on the routine work. A new patent index, several new warrant registers and other work absolutely necessary to be done has received attention during the year. The necessity for fully carrying out the provisions of the act of 1833, for copying old surveys and records, will be pressed upon the consideration of the appropriation committee at the coming session of the legislature.

The making of the new warrant register for Northumberland county, with additional information collected and recorded in the register, has engaged the services of three men for more than six months.

Maps, Reports, Etc.

Under the act of May 8, 1876, maps and reports have been numbered and filed among the department records during the past year as follows, to wit:

Railroads.

No. 63. Kettle Creek railroad. Map showing line of road from Philadelphia and Erie railroad, at Westport, to the mouth of Trout run in Leidy township, Clinton county. Filed March 20, 1890.

No. 64. Kettle Creek railroad. Profile of line from Westport to Trout Run. Filed March 20, 1890.

State and County Lines.

No. 124. Map of the boundary line between the counties of Mifflin and Union. It is not known when this draft came to the department, or whether it is official. Entered December 14, 1889.

No. 125. Boundary line between the States of Pennsylvania and New York. Articles of agreement between the Secretary of Internal Affairs of Pennsylvania and the State Engineer of New York for the preservation of monuments on the line. Entered October 7, 1890.

No. 126. Boundary line between the States of Pennsylvania and New York. Report of the engineers on the resetting of monuments on the line in 1890. Entered October 7, 1890.

No. 127. Boundary line between the States of Pennsylvania and New York. Act of congress confirming articles of agreement between the Secretary of Internal Affairs of Pennsylvania and the State Engineer of New York. Entered October 7, 1890.

Boundary Lines.

Under the authority given by the act of 1889, the department has fully discharged the duties therein imposed by coöperating with the authorities of the State of New York, in having the boundary line be-

tween this and that state established where its location was not known, monuments have been replaced and reset, and new ones erected when necessary. A conference was held with Mr. Bogart, the chief engineer and surveyor of the State of New York, as to the best place for executing the work. An agreement was entered into on the part of the two states, and two competent engineers employed who were furnished with all the data at hand to enable them to intelligently proceed with the task assigned them. They were also furnished with copies of the reports of the county commissioners made to this department by virtue of the act of 1887, which authorized annual inspection of the boundary line monuments. The duties of these engineers appear to have been thoroughly promptly and intelligently discharged. The agreement referred to, other memoranda and the detailed report of said engineers, is submitted herewith:

WHEREAS, The State of New York, by act of its general assembly, has imposed upon the State Engineer and Surveyor the duty of making triennial examinations of the boundary line monuments between that state and the State of Pennsylvania, and has made it obligatory upon that officer to repair, reset and replace any such monuments when found necessary so to do, and also to reëstablish the line between the states named, when its location cannot be determined owing to the misplacement of monuments:

And whereas, Similar authority, under and by virtue of the act of May 4, 1889, passed by the Legislature of Pennsylvania, was given to the Secretary of Internal Affairs of Pennsylvania:

And whereas, By virtue of the law in the two states referred to, the said state officers are required to coöperate with each other and act jointly in repairing and replacing the monuments and restablishing the line:

And whereas, An investigation made of the condition of these monuments and the line, by the said authorities in the two states named, clearly shows that a number of monuments have been misplaced, mutilated or destroyed, and that at one place at least the said boundary line must be reëstablished to determine its exact location; therefore,

The undersigned, acting in conformity with the authority conferred, as hereinbefore stated, have this day agreed that A. S. Kibbe, representing the State of New York, under appointment made by John Bogart, State Engineer and Surveyor of the said State of New York, and Alan W. Corson, representing the State of Pennsylvania, under appointment made by Thos. J. Stewart, Secretary of Internal Affairs of the said State of Pennsylvania, shall be empowered, and by these presents are hereby empowered, to cause to be repaired, reset and replaced any of the said boundary line monuments which, in their judgement, may need to be repaired, reset or replaced, and also to reëstablish the boundary line, the exact location of which is not known owing to the removal of the one hundredth milestone.

It is further agreed, that the parties herein named shall have full authority to represent the respective states in the discharge of the duties herein imposed, limiting the scope of their operations, however, to such monuments as appear, from the reports of the examinations hereto attached, to require attention, and to the reëstablishing of the boundary line at the point referred to herein.

It is further agreed, that the actual expenses incurred in the discharge of the duties herein referred to shall be borne equally by the two states in interest, except so far as the same relates to the compensation of the two engineers herein appointed, which compensation is to be arranged by each state separately; and that all expenses be accounted for in verified statements, and, so far as practicable, supplemented by receipted vouchers from the parties to whom disbursements may have been made.

It is further understood, that the engineers herein referred to shall proceed at once to the discharge of their duties, and complete the work provided for on or before the fifteenth day of August, 1890.

In witness whereof, The said John Bogart, State Engineer and Surveyor of the State of New York, and Isaac B. Brown, Deputy Secretary of Internal Affairs of Pennsylvania, have hereunto set their hands and caused the seals of their respective departments to be affixed this twenty-seventh day of June, 1890.

Arthur S. C. Wurtele, [seal.]
Deputy State Engineer and Surveyor.
Isaac B. Brown, [seal.]
Deputy Secretary of Internal Affairs.

Whereas, In the prosecution of work of resetting and replacing monuments on the boundary line between the States of New York and Pennsylvania under agreement dated the 27th day of June, 1890, it was found that a number of monuments, not mentioned in attached report, require resetting and replacing and that the time limit of 15th of August, is too short for completion of the work in a proper manner; therefore,

It is agreed that all monuments found to require attention during the present examination be reset or replaced, and that the time for completion of this work is extended to 15th day of September.

In witness whereof, The said John Bogart, State Engineer and Surveyor of the State of New York, and Isaac B. Brown, Deputy Secretary of Internal Affairs of the State of Pennsylvania, have hereunto set their hands and caused the seals of their respective departments to be affixed, this ninth day of September, 1890.

Arthur S. C. Wurtele, [seal.]
Deputy State Engineer and Surveyor.
Isaac B. Brown, [seal.]
Deputy Secretary of Internal Affairs.

September 9, 1890.

Hon. THOMAS J. STEWART,

Secretary of Internal Affairs, Harrisburg, Penn'a:

SIR: In compliance with the articles of agreement, executed the twenty-seventh day of June, 1890, on the part of the State of Pennsylvania by Isaac B. Brown, Deputy Secretary of Internal Affairs, and on the part of the State of New York by Arthur S. C. Wurtele, Deputy State Engineer and Surveyor, the undersigned have the honor to submit the following report:

An examination of the monuments marking the line between the two states was instituted under the direction of the state engineer and surveyor of New York on July 5, 1890, in compliance with the laws of the state, calling for triennial inspection. This examination, made by Assistant Engineer A. S. Kibbe, was continued without interruption, over the line from Delaware river to Fassett, Penn'a, seventy-three miles, and on July 14, the undersigned met at Waverly, N. Y., and proceeded to restore such monuments as required attention.

It was here decided to re-set such stones as had been raised twelve inches or more above their original positions, and to replace such as might have disappeared or had been so mutilated as to destroy their usefulness. On July 20, the above mentioned portion had been restored in accordance with the decision above outlined, and the examination continued from Fassett westward to Ceres, N. Y., seventy-six miles. The undersigned met for a second time at Olean, N. Y., on August 2, and on August 12, had completed the restoration of the second portion. The examination was completed to Lake Erie on August 29; the undersigned met at North East, Penn'a, on that date, on September 6, the work of readjustment was finished, and there are now none of the monuments marking the line between these states standing less than two and one-half feet in the ground.

It became apparent at the very outset that it was impracticable and unnecessarily expensive to undertake the re-setting of every stone which might have been raised a trifle above its normal position, as such an operation would involve the frequent disturbance of many of the stones to no good end. Lacking data to contradict such a theory, it seems reasonable to assume that many of the stones owe their heaving to the fact that, being set late in the season, the disturbed earth was easily permeated by water and froze deeper and more readily the first winter than subsequently, and it is *possible* that they have not moved at all since. In such a case to disturb them again would accomplish no good and would simply involve additional expense. Under these considerations the above mentioned limit of twelve inches was adopted. The utmost care was exercised in every instance to provide against a recurrence of the heaving. Whereas the monuments were originally set in a hole as small as might be, in the course of re-setting, the excavation was

made four feet square at the top, with only a slight batter, and the lower half, at least, filled compactly with stones and coarse gravel, and every shovelful of earth well stamped into place. There is little probability of a recurrence of the excessive heaving noted in some cases.

The recent experience has demonstrated the advantage of coöperation on the part of the two states in this matter, and, as well, the fact that, in many portions of the line, three years is the longest time that should be permitted to elapse between successive examinations. Economy and accuracy require that the examination and re-setting should be performed throughout by the same parties, and we would therefore respectfully recommend that in the future triennial examinations should be made by representatives of both states in coöperation, and that such representatives should be authorized to re-adjust any monuments found disturbed.

The following schedule shows such monuments as were re-set or re-adjusted, with the reasons therefor:

On the Parallel Boundary.

July 20. Town corner, Sanford-Windsor, N. Y. (Broome co.), lowered 12 inches into position.

19. Highway stone next east of milestone 13 lowered 19 inches.
Milestone 15 lowered 22 inches into position.

18. Highway stone 197 feet east of milestone 27 lowered 18 inches.
Milestone 27 (almost entirely out) lowered into position.
Milestone 30 (almost entirely out) lowered into position.
County corner, Broome-Tioga, N. Y., lowered into position.
Milestone 39½ lowered 18 inches into place.

17. Highway stone between M. Ss. 40 and 41, lowered 24 inches.
Milestone 42 (almost entirely out) lowered into position.
Milestone 47 (almost entirely out) lowered into position.

16. Railroad stone on Lehigh Valley railroad at Waverly, N. Y., had been extracted and broken by a steam shovel in lowering the grade of the railroad. The line was re-run and a stone placed in line between milestone 59 and the highway stone just west of the L. V. R. R. tracks, midway between the two main tracks.
Railroad stone on Delaware, Lackawanna and Western railroad at Waverly, N. Y., lowered one foot into place.
Stone on east bank of the second intersection of the Chemung river, between milestones 62 and 63, lowered one foot into position.

Aug. 10. Railroad stone, Northern Central railroad near Fassett, Penn'a was originally set at side of track in the ditch. This monument was removed and placed in the same line on the level ground west of the railroad track.

Aug. 12. Milestone 78 lowered 15 inches into place.
Highway stone next east from M. S. 80, lowered 14 inches.
Highway stone next east from M. S. 81, appeared high from the fact that earth had been washed away from it. The bank was restored and sodded.

11. County corner (Chemung-Steuben, N. Y.), highway and milestone 82 lowered 16 inches into position.

9. Milestone 97 lowered 13 inches into position.
Railroad stone, Addison and Pennsylvania railroad, near Nelson, Penn'a, had been removed by railroad employés and placed in a wrong position. This necessitated re-running the line for the purpose of discovering the original underground disc. When found, this was moved westward, along the line, a distance of two feet from its original position and the stone set over it as before.

8. Milestone 100 (Woodhull-Tuscarora, Steuben county, N. Y.), had been washed out of place by a freshet, and the stone subsequently stolen. The line was re-run and a new stone located in the same place. Lying as it does in the channel of a brook subject to violent freshets, it was deemed advisable to embed this stone in a mass of concrete, and this was done with the best materials the neighborhood afforded.

7. Highway stone bet. M. Ss. 102 and 103 lowered 12 inches.

6. Highway stone next east from milestone 108 had been heaved about twenty inches and since its location the road has been shifted, intersecting the state line road at a point about one-quarter of a mile further east. The line was re-run between milestones 107 and 108 and the stone re-set at the northwest side of the road, at its intersection, over a stone disc, shaped and pierced in a manner similar to those originally employed.

5. Town corner, West Union-Troupsburg, Steuben county, N. Y., just west of milestone 116, lowered 13 inches into place.

4. Milestone 132 lowered 12 inches into position.

Sept. 6. Milestone 148 had been broken off intentionally even with the ground. A new one was placed in the same position, but no disc was discovered, the bottom being gravelly and kept constantly wet by a vein of water running about two and one-half feet under ground. No disc was placed under it.

4. Highway stone just east of milestone 167, lowered into place.

3. Railroad stone, Western New York and Pennsylvania railroad, near Corydon, Penn'a, was found 24 inches out of the ground, similarly to the stone at Fassett. This one was removed about twenty feet easterly, along the line, to the level ground, out of the way of workmen and water.

2. Milestone 197 was lowered 15 inches into position.

Sept. 2. Milestone 200 was lowered 13 inches into position.

Aug. 31. Railroad stone, Western New York and Pennsylvania railroad, near Clymer Station, N. Y., was also found in the ditch, 22 inches out of ground. This was removed about 15 feet westerly along the line, to the level ground, about 4 feet east of the fence.

Highway and milestone 219 lowered 13 inches into place.

On the Meridian Boundary.

Aug. 30. Milestone 2 was lowered 16 inches into position.

A highway stone between milestones 208 and 209 has been reported as impeding travel, but upon investigation it appeared that the stone was located as favorably as possible under the existing circumstances, and it was therefore not disturbed.

Very respectfully submitted

Engineer for State of Pennsylvania.

Department of State,
Washington, *September 11, 1890,*

To His Excellency the Governor of the State of Pennsylvania, Harrisburg, Pennsylvania:

Sir: I have the honor to transmit herewith a duly authenticated copy of an act of congress entitled "An act to ratify and confirm an agreement entered into by the commissioners on the part of the States of New York and Pennsylvania, in relation to the boundary line between said states," approved August 19, 1890.

I have the honor to be, sir, your obedient servant,

William. F. Wharton,
Acting Secretary.

Enclosure certified copy, Public No. 232.

Confirmation of the Location of the Boundary Line as now Established Between the States of New York and Pennsylvania.

By agreement between the commissioners of the State of New York and the commissioners representing the State of Pennsylvania, in 1886 the boundary line was reëstablished and certain streams, rivers and monuments were agreed upon as indicating the location of the line dividing the two states. This agreement has been concurred in by the legislatures of each of these states and has since been confirmed by the Congress of the United States as is shown by the correspondence, certificate and copy of act submitted herewith:

UNITED STATES OF AMERICA,
DEPARTMENT OF STATE.

To all to whom these presents shall come, greeting:

I certify that hereto annexed is a true copy of an act of Congress approved August 19, 1890, the original of which is on file in this department, entitled "An act to ratify and confirm an agreement entered into by commissioners on the part of the States of New York and Pennsylvania, in relation to the boundary line between said states."

In testimony whereof, I, William F. Wharton, acting Secretary of State of the United States, have hereunto subscribed my name and caused the seal of the Department of State to be affixed.

Done at the city of Washington this 9th day of September, A. D. 1890, and of the independence of the United States of America the one hundred and fifteenth.

WILLIAM F. WHARTON. [SEAL].

AN ACT

To ratify and confirm an agreement entered into by commissioners on the part of the States of New York and Pennsylvania in relation to the boundary line between said states.

WHEREAS, Commissioners duly appointed on the part of the State of New York and commissioners duly appointed on the part of the State of Pennsylvania for the purpose of settling and remarking the boundary line between said states did execute an agreement in the words following, namely:

First. The channel of the Delaware river, from a line drawn across said channel, from a granite monument erected upon the eastern bank of said river in the year eighteen hundred and eighty-two, by the joint boundary commission of the States of New Jersey and New York, to mark the western extremity of the boundary line between the States of New Jersey and New York, in a westerly prolongation of said boundary line up and along said channel of said Delaware river, as it winds and turns, for a distance of eighty-five miles or thereabouts, to a line drawn east across said river from a granite monument erected upon the west bank of said river, in the year eighteen hundred and eighty-four, by H. W. Clark and C. M. Gere, to mark the eastern extremity of the first line hereinafter described, shall continue to be a part of the boundary or partition line between the said two states: *Provided however*, That the limit of territory between the said two states shall be the center of the said main channel: *And provided further*, That each state shall enjoy and exercise a concurrent jurisdiction within and upon the water of said main channel between the lines of low water at either bank thereof between the limits hereinbefore mentioned.

Second. The line extending from the Delaware river aforesaid at a point upon said river fixed and marked with monuments (which have since disappeared), by David Rittenhouse and Samuel Holland, in the

month of November, in the year seventeen hundred and seventy-four, west as the same was surveyed and marked with monuments in the year seventeen hundred and eighty-six, as far as the ninetieth milestone, by James Clinton and Simon DeWitt, commissioners on the part of the State of New York, duly appointed for that purpose by the Governor of said state, in pursuance of an act of the legislature of said state, entitled "An act for running out and marking the jurisdiction line between this state and the Commonwealth of Pennsylvania," passed seventh March, seventeen hundred and eighty-five, and David Rittenhouse, Andrew Porter and Andrew Ellicott, commissioners on the part of the Commonwealth of Pennsylvania, duly appointed for that purpose by the supreme executive council of said commonwealth, in pursuance of an act of general assembly of said commonwealth, entitled "An act to authorize and enable the supreme executive council to appoint commissioners to join with the commissioners appointed, or to be appointed, on the part of the State of New York, to ascertain the northern boundary of this state from the river Delaware, westward to the northwest corner of Pennsylvania," passed thirty-first March, seventeen hundred and eighty-five, and from the said ninetieth milestone west, as the same was surveyed and marked with monuments and posts, in seventeen hundred and eighty-seven, by Abraham Hardenberg and William W. Morris, commissioners on the part of the said State of New York, duly appointed in the place of Simeon DeWitt and James Clinton aforesaid, by the governor of this state, in pursuance of the act aforesaid, and the act supplementary thereto, passed by the legislature of said state twenty-first April, seventeen hundred and eighty-seven, and Andrew Ellicott and Andrew Porter aforesaid, commissioners on the part of the Commonwealth of Pennsylvania, to the point at which said line is intersected by the line of cession or meridian boundary hereinafter described, which said line so surveyed and marked in the years seventeen hundred and eighty-six and seventeen hundred and eighty-seven, has since been acknowledged and recognized by the said two states as a part of the limit of their respective territory and jurisdiction, shall, notwithstanding any want of conformity to the verbal description as written in the charter of the province of Pennsylvania, granted to William Penn in the year sixteen hundred and eighty-two, or as recited by the commissioners aforesaid, continue to be the boundary or partition line between the two said states, from the Delaware river aforesaid, to the said point of intersection with the said line of cession: *Provided*, That wherever upon said line the location of any of the monuments, or posts, erected by the said commissioners in seventeen hundred and eighty-six and seventeen hundred and eighty-seven, have been lost and cannot otherwise be definitely fixed, then and in that case, and in every case where it is required to establish intervening points in said line, a straight line drawn between the nearest ad-

jacent monuments whose localities are ascertained shall be understood to be, and shall be, the true boundary line.

Third. The line of cession, described as a meridian line, drawn from the forty-fifth degree of north latitude south through the most westerly bent or inclination of Lake Ontario, in the deed of cession to the United States of certain territory claimed by the said State of New York, lying west of said line, executed first of March, seventeen hundred and eighty-one, by James Duane, William Floyd and Alexander McDougal, delegates in Congress of said United States from the State of New York, in pursuance of an act of the legislature of said state, entitled "An act to facilitate the completion of the articles of confederation and perpetual union among the United States of America," passed February nineteenth, seventeen hundred and eighty, which said territory was afterwards conveyed by the United States aforesaid to, and became a part of, the territory and jurisdiction of the said Commonwealth of Pennsylvania, as the said line was surveyed and marked with posts and monuments of stone in the year seventeen hundred and ninety, by Andrew Ellicott, who was duly appointed for that purpose by the President of the United States, in pursuance of a resolution of congress passed nineteenth August, seventeen hundred and eighty-nine, which said line and its prolongation due north into the waters of Lake Erie until it intersects the northern boundary of the United States aforesaid, have since been acknowledged and recognized by the said two states, as a part of the limit of their respective territory and jurisdiction, shall, notwithstanding any possible want of conformity to the verbal description thereof, as contained in said deed of cession, continue to be the boundary or partition line between the said two states, so far as said line so surveyed and marked in seventeen hundred and ninety shall extend.

Fourth. The monumental marks by which the said boundary line, except such portions thereof as may be within the waters of the Delaware river and Lake Erie, shall hereafter be known and recognized, are hereby declared to be:

"First. The original monuments of stone, erected in the years seventeen hundred and eighty-six and seventeen hundred and eighty-seven by the commissioners aforesaid, and in the year seventeen hundred and ninety by Andrew Ellicott, aforesaid, as the same have been restored and reëstablished in their original positions, or have been replaced by granite monuments erected in the years eighteen hundred and eighty-one, eighteen hundred and eighty-two, eighteen hundred and eighty-three, eighteen hundred and eighty-four and eighteen hundred and eighty-five, by H. Wadsworth Clarke, surveyor on the part of New York, and Christopher M. Gere, surveyor on the part of Pennsylvania, duly appointed by the parties hereto.

"Second. The new monuments of granite, erected in the years eigh-

teen hundred and eighty-one to eighteen hundred and eighty-five, inclusive, by the aforesaid surveyors, at intervals of one mile, more or less, and numbered consecutively along said line originally surveyed and marked in the years seventeen hundred and eighty-six and seventeen hundred and eighty-seven, beginning from the Delaware river, and severally marked on the north side with the letters 'N. Y.,' and on the south side with the letters 'PA.,' and along said line originally surveyed and marked in the year seventeen hundred and ninety, beginning at the shore of Lake Erie and severally marked on the east side with the letters 'N. Y.,' and on the west side with the letters 'PA.'

"Third. The new monuments of granite erected by the said surveyors in the years eighteen hundred and eighty-one to eighteen hundred and eighty-five, inclusive, aforesaid, at the intervening points on said line, and at its intersection with public roads, railroads and rivers, and at other points, and severally marked at the one side with letters 'N. Y.' and on the other side with the letters 'PA.'

"Fourth. A large monument of granite erected in the year eighteen hundred and eighty-four, by the said surveyors, six hundred feet west of the center of the Delaware river in the said line originally fixed in the year seventeen hundred and eighty-six, to mark its eastern terminus, a large monument of granite erected in the year eighteen hundred and eighty-four by the said surveyors in the said line or meridian boundary, as originally fixed in the year seventeen hundred and ninety, one hundred feet north from its intersection with the line originally surveyed as aforesaid in the year seventeen hundred and eighty-seven, which said point of intersection is marked by a small monument of granite buried in the center of the highway in eighteen hundred and eighty-four by the said surveyors, and also a large monument of granite erected in the year eighteen hundred and sixty-nine by John V. L. Pruyn, George R. Perkins, Samuel B. Woolworth and George W. Patterson, on the part of the State of New York, and Williams Evans, on the part of the State of Pennsylvania, four hundred and forty feet south of the original monuments erected in the year seventeen hundred and ninety by Andrew Ellicott, aforesaid, upon the south shore of Lake Erie in the line originally surveyed and marked by him as aforesaid.

"Fifth. The field book of said surveyors containing the notes of the resurveys along said line in the years eighteen hundred and seventy-seven, eighteen hundred and seventy-eight, and eighteen hundred and seventy-nine; also the 'record of monuments' prepared by said surveyors, containing the descriptions of the locations of the several monuments erected by them, and of the witness mark thereto, also the maps of said line and the vicinity thereof, showing the locations of said monuments, and also the 'diary operations' of said surveyors under the direction of the parties hereto, the same having been duly authenticated by the signature of the said surveyors, and the several documents and

books of record containing the transactions of the parties hereto, all of which being placed on file in the office of the Secretary of State of New York, and the office of the Secretary of Internal Affairs of Pennsylvania, shall constitute the permanent and authentic records of said boundary line, and are hereby adopted by the parties hereto and made a part of this agreement.

"Sixth. This agreement shall become binding upon the two states when ratified by the legislatures thereof, respectively, and when confirmed by the Congress of the United States.

"In witness whereof the said commissioners have hereunto set their hands and seals in duplicate the twenty-sixth day of March, eighteen hundred and eighty-six, aforesaid.

"Executed in the presence of witnesses:

"As to Henry R. Pierson—Edward I. Devlin,
"H. R. PEARSON [SEAL].

"As to E. W. Leavenworth—H. W. Clarke,
"E. W. LEAVENWORTH [SEAL].

"As to Chauncy M. Depew—Edward I. Devlin,
"CHAUNCY M. DEPEW [SEAL.]

"As to C. M. Gere—A. D. Birchard,
"C. M. GERE [SEAL].

"As to Robert N. Torry—Andrew Thompson,
"ROBERT N. TORRY [SEAL]."

And whereas said agreement has been confirmed by the legislatures of the States of New York and Pennsylvania, respectively, therefore,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the consent of Congress of the United States be, and hereby is given to said agreement, and to each and every part thereof, and the boundaries established by said agreement are hereby approved and confirmed.

Approved August 19, 1890.

The detailed reports of the county commissioners, part of which were made in 1889 and the balance in 1890, are printed herewith. The commissioners of a few of the counties have failed in the discharge of their duties in the way of making reports.

No. 41, index.	Tuesday, June 25, 1889, by Commissioner Morris.	All in good order but almost undiscoverable from being overgrown by vegetation at this season of the year. April or October would be far better times to make examination.	.....	.....	The trip was made in 1888, from the southwest corner to southeast. This year it was made from the southeast to southwest corner. This will account for reversal of numbers. A whole day is required to go from the county seat to No. 41, and the same time from No. 22 to the county seat.

SOMERSET COUNTY.

Number or style of monument, mile or index stone, or other landmark.	When examined and by whom.	Condition—(If mutilated or disturbed state to what extent.)	If mutilated or disturbed, what action has been taken to repair or replace.	What action has been taken to apprehend and punish offenders.	Remarks.
Nineteen earth mounds, .	Examined from 5th to 13th of May, 1890, by the commissioners of Somerset county and L. C. Colborn, Esq., surveyor.	All the mounds are now in good condition; some were repaired and all re-marked.	All when needed were placed at once in good condition and in one instance a man was hired to place one in order.	No intentional or malicious disturbing of the mounds were done; in one instance we found a mound thrown partly down by hunters after rabbits that sought refuge in it; not knowing the offenders no action has been taken to punish.	If notices were placed at intervals along the line warning persons against disturbing the monuments would prevent much of it.
Twenty-two stone mounds,	Examined by the same between dates mentioned above.	All in good condition; two were discovered or the place where they had been and were built up and placed in good condition.	. . . . .	. . . . .	The stone mounds as a general thing do not present as good appearance as earth mounds, neither are they as substantial, as the stone are more easily misplaced. Some work was done on nearly all.
Two stone and earth mounds.	Examined as above stated.	In fair condition, . .	Repaired where needed.		
One iron monument on the National road, erected when this famous road was made in 1816.	Examined same date,	This monument was again down and was again replaced; see cut of same in report.	Repaired.		
One large flat stone marked in rude characters D.M.+PNS.	Examined by same between dates mentioned above.	Good condition, . . .	. . . . .	. . . . .	The interest the citizens have in this stone, on account of its rude characters and the history connected with it, insures its preservation.

To Hon. THOMAS J. STEWART,

Secretary of Internal Affairs:

In compliance with the provisions of the act of assembly approved the 19th day of May, 1887, entitled "An act to provide for the care and preservation of the monuments marking the boundary lines of the commonwealth," respectfully submit the following:

That we again secured the services of L. C. Colborn, Esq., as the surveyor, and proceeded to make the examination of the famous boundary line between the Commonwealths of Pennsylvania and Maryland, better known as the Mason and Dixon line, on the 5th day of May, 1890.

We again commenced at the corner of Fayette county, on the east bank of the Youghiogheny river, at a large white oak tree, and ran the line east on the same magnetic bearings as run before, south eighty-seven and one-half degrees (S. 87½° E.).

The mile posts placed on the line when run two years ago are still in place, and the marks made to witness the monuments are still very discernible.

In our examination we found nineteen earth mounds, one more than was reported by us on the previous survey. This mound being in a field was plowed over by farmers not knowing it to be a mound, and became flat, but on inquiry of some of the oldest citizens it was discovered that it was a mound, and so marked and placed in good condition.

We also found twenty-two stone mounds and two earth and stone mounds, two more stone mounds than reported before. One of these is near the top of Savage mountain. It is an important mound, being at a point where they are the farthest apart. This mound was almost entirely demolished. We built it up, placed it in good condition, and witnessed the trees around it so that there may be no trouble in the future. This mound was also discovered by information received from citizens, as it could not be located or found by passing along, not knowing there was one located there

Some work was done at nearly all the mounds, such as placing new stakes in them and marking the trees as witnesses to the mounds, and replacing stones that have been misplaced.

The mounds are all now in fairly good condition. In one instance they are too far apart, and not knowing whether we had the right or authority to erect new mounds or not, we did not do it, but only went by the "old landmarks." It would be better if new mounds were erected so as to save trouble in the future.

The sum set apart by the state is not sufficient to make the examination and repairs to the monuments that should be done, yet we have done all that could be done without the additional expenditure of money. In the month of March there was a surveying party passed along the line, beginning out at the corner of Maryland and West Virginia. What their object was we were unable to ascertain, or by

what authority or for whom they were doing it. They kept from thirty feet to three hundred feet from the line on the Pennsylvania side, except in one instance, over Savage mountain, they ran directly on the line. They marked the line they ran by blazing the trees, and put up posts every three hundred feet. This line as marked will in time create a great deal of trouble. This should not have been done. For parties now, thinking they ran the state line to ascertain its location by authority of the state, claim land over to this line. They cut a road out over the mountains and through the thickly wooded districts, which made many persons believe they had authority, and the line being marked so thoroughly by stakes, posts and blazed trees, confirms the opinion formed in their minds. Something ought to be done to eradicate this evil.

We would recommend the placing of notices at certain intervals along the line, warning persons against the disturbing of the monuments, as many are thrown down thoughtlessly in search of game that seek refuge there, and by others out of curiosity, not knowing what they are.

As many have never seen these mounds or monuments, and thinking it might be interesting to the public to see them, we herewith attach several cuts representing the appearance of the mounds on the line, also the monument erected where the line crosses the national road.

We found the distance the same as reported before, 31 miles $103\frac{4}{10}$ perches. We also herewith submit a draft of the line so far as it extends along Somerset county, showing the location of the mounds, streams, roads and townships through which it passes.

All of which is respectfully submitted.

D. E. Wagner,
Geo. M. Neff,
C. W. Williamson,
Commissioners of Somerset County.

I do hereby certify to the correctness of this report.

L. C. Colborn,
Surveyor.

Magnetic Declination.

Observations on the solar diurnal declination of the magnetic needle were continued until nearly the close of the year 1889, when they were suspended owing to the proximity of large masses of metal used in the construction of a conservatory on the public grounds, near the established meridian line, which affected the movements of the magnetic needle to such an extent as to render the readings practically useless; and further observations cannot be made unless a new location is found, or the disturbing elements are removed.

In view of the practical value and usefulness of these observations to surveyors and civil engineers throughout the state, the department greatly regrets its inability to continue them, and hopes that some arrangement can be made at an early day by which they can be resumed.

STATE WEATHER SERVICE BUREAU.

This bureau was established under the provisions of the act of May 13, 1887. According to the phraseology of the act its purpose seems to have been very largely for the benefit of the agriculturists of the state. The operations of the bureau have been entirely under the control of the Franklin Institute of Philadelphia. The Secretary of Internal Affairs, under the act of 1887, was authorized to *name* and *appoint* "observers" upon the recommendation of the Franklin Institute. Certain clerical work was to be done by the department. The purchase of supplies, the payment of bills for supplies and stationery, and printing, etc, was to be done by the Secretary of Internal Affairs, when ordered by the Franklin Institute. No discretion as to indebtedness incurred, or bills to be paid, was given to the secretary. Nothing, in fact, was to be done by the department, except what was done by the direction of the Franklin Institute. So far as the department is concerned, it has obeyed orders, executed all the duties imposed upon it, and caused the report of the institute to be published annually since 1887. The legislature, at its coming session, should adopt one of two plans as to the disposition or management of this bureau, after fully determining whether it is an actual benefit to the people of the commonwealth. The institute should have control of all the details and be entirely divorced from the department, or the entire authority should be conferred upon the Secretary of Internal Affairs, and headquarters should be established at the seat of the state government. The expenses of the maintenance of the State Weather Service Bureau, in connection with the service of the United States, is not heavy upon the commonwealth, and it would seem that the benefits derived from it would be a liberal return for the moneys expended. The present administration of the Department of Internal Affairs is perfectly willing to assume control over this bureau, and will execute faithfully any law that may be passed relating to the work thereof; but on the grounds of public policy it seems advisable to make some amendment to the law as it now exists. The only rights now exercised by the department are to make a requisition for the appropriation and to pay it over to such persons as may be named by the institute. The detailed report of the operations of the bureau for the year ending November 30, 1890, together with a letter of transmissal from the institute, is respectfully submitted herewith.

Philadelphia, *December 4, 1890.*

To the Chairman of the Meteorological Committee of the Franklin Institute:

Sir: I have the honor to submit the following report of the operations of the Pennsylvania State Weather Service during the year ending November 30, 1890.

On an average, over sixty stations have been maintained with very nearly continuous records. The normal temperatures of the state for each month of the year, have been completed and published in serial form, in the Monthly Weather Review from July, 1889, to June, 1890. These are valuable for easy reference and future comparison.

A long series of records is necessary to render inferences from them as nearly accurate as is desirable in a state which contains such a diversified climate as that of Pennsylvania. Most of the observers have continued their records with a zeal and promptness that is very gratifying and remarkable in a voluntary service requiring so much time and precision. Many letters have been received from them stating the value of the service in their localities, and the increasing interest of the public. It is hoped that during the coming year the few additional stations that are needed, may be established, and the assistance of local organizations secured to coöperate in the more extended display of weather signals, and the reporting of valuable and reliable data for the weather crop bulletin.

These bulletins have steadily grown in favor, and are capable of being made of inestimable value to the community.

The continued assistance of the National Weather Bureau is best expressed by the following extracts from the proceedings of the stated meeting of the Franklin Institute held Wednesday, October 15, 1890.

* * * * * * * * *

The following preamble and resolutions were adopted without dissent, viz:

Whereas, An act to increase the efficiency and reduce the expenses of the signal corps of the army, and to transfer the weather service to the Department of Agriculture, has become a law:

And whereas, The high standard and efficiency of the Pennsylvania State Weather Service, under the direction of the meteorological committee of the Franklin Institute is largely due to the aid received from the signal corps of the army; therefore, be it

Resolved, That the thanks of the Franklin Institute are due and are hereby tendered to General A. W. Greely, for the liberal policy he has pursued towards the Pennsylvania State Weather Service; to Captain H. H. C. Dunwoody, for the valuable aid in the organization of the state service, and his active interest in promoting its growth and usefulness; to Sergeant T. F. Townsend, for his energy and zeal in carrying out the

instructions and wishes of the meteorological committee, and to the corps of observers and displaymen who have freely contributed their labors in bringing the service to its present high standard; and be it further

Resolved, That in the organization of the weather bureau it is the hope of the Franklin Institute that the state service may continue to receive the same substantial aid as in the past, in order that it may prove a still more important auxiliary to the work of the National Weather Bureau.

Copies of the Monthly Weather Review issued, from December, 1889, to November, 1890, inclusive, are enclosed herewith.

Very respectfully,

Your obedient servant,

T. F. TOWNSEND,

Sergeant Signal Corps, Assistant in Charge.

MONTHLY WEATHER REVIEW FOR DECEMBER, 1889.

HALL OF THE FRANKLIN INSTITUTE,
PHILADELPHIA, *December 31, 1889.*

Temperature.

The mean temperature for December, 1889, determined from sixty-four stations gives a mean or average temperature of 39°.3, which is about 9° in excess of the normal, and as compared with Philadelphia temperatures for the past hundred years and over, it was the warmest December on record.

The greatest departures were in the western part of the state where the mean temperature for the month averaged 11° above the normal. In the eastern portion it was about 7° above.

There was a complete absence of the low temperatures that usually occur in December, and the maximum temperatures were decidedly higher.

The highest temperatures reported were Centre Valley, 73; Lewistown, 70; Erie, 70; Waynesburg, 70 and Coatesville, 68°.5.

The lowest were Le Roy, zero; Eagles Mere, zero; Somerset, 6°; Wysox, Grampian Hills, Wellsboro', Columbus, Dyberry and Honesdale each 8°. The lowest temperatures occurred on the 4th, and the highest during the 25th.

Total excess in temperature during December at Philadelphia, 279°.

Total excess in temperature during December at Pittsburgh, 387°.

Total excess in temperature since January 1 at Philadelphia, 613°.

Total excess in temperature since January 1 at Pittsburgh, 568°.

Barometers.

The mean pressure for the month, 30.15, is about .05 higher than the normal. The highest occurred on the 31st, and the lowest on the 26th.

The total precipitation for the month, 2.77 inches, is about two-tenths less than the average. There were a slight excess in the western part of the state and deficiency in the eastern. The greatest totals were Columbus, 5.05; Grampian Hills, 4.67; Johnstown, 4.62; Tipton, 4.49, and Somerset, 4.29 inches. The least were Philadelphia, 0.85; Germantown, 0.91, and Swarthmore, 1.05 inches.

The only snow that occurred was in the northeastern part of the state. The following are the greatest totals: Dyberry, 7 inches; Honesdale, 6 inches; South Eaton, 6 inches; Eagles Mere, 5 inches; Wellsboro', 5 inches, and Catawissa, 4 inches. Rains were of frequent occurrence but light.

Wind and Weather.

The prevailing wind was from the west. No severe gales passed over the state.

The month will be memorable from having been the warmest December on record.

SHOWING THE

NORMAL TEMPERATURE OF PENNSYLVANIA FOR JANUARY

MEAN TEMPERATURE AND RAINFALL FOR JANUARY 1880

Monthly Weather Review for January, 1890.

Hall of the Franklin Institute,
Philadelphia, *January 31, 1890.*

Temperature.

The mean temperature of the state for January, 1890, determined from sixty-four stations was 37°.7, which is about 11° above the normal, which makes this month the warmest January since 1880. The mean of the daily maximum and minimum temperatures 46°.1 and 28°.9 give an average daily range of 17°.2.

Greatest local monthly range 67° at Blue Knob.

Least local monthly range 46° at Annville, Catawissa and Myerstown.

Greatest daily range 44° on the 12th at Chambersburg.

Least daily range 2° on 7th at Tipton.

The averages of the greatest and least daily ranges were 34°.0 and 5°.8.

The highest temperatures recorded during the month were Coatesville, 77°; Gettysburg, 75°; McConnellsburg, 74°; Centre Valley, 74°, and Chambersburg, 73°.

The lowest were Blue Knob, minus 2°; Dyberry, 2°; Somerset, 3°, and Eagles Mere, 5°.

Most stations report the warmest day of the month on the 12th, and coldest on the 22d.

According to the mean temperatures, Uniontown, 43°.2; Philadelphia, 41°.8, and Waynesburg, 41°.8 were the warmest stations, and Eagles Mere, 31°.0, and Dyberry, 31°.6, the coldest.

Barometer.

The mean pressure for the month, 30.22, is about one-tenth above the normal. Philadelphia reports the highest, 30.760 on the 1st, and Erie the lowest, 29.400 on the 13th.

Precipitation.

The average rainfall of the state was 3.04 inches, which is about .30 below the normal. The western part of the state received an excess, and the eastern portion a deficiency. The largest totals in inches [rainfall and melted snow] were Clarion, 6.87; Uniontown, 6.10; Tionesta, 6.00 and Somerset. 5.60.

The least were Chambersburg, 1.80; South Eaton, 1.60; Charlesville, 1.52, and New Bloomfield, 1.47. The heaviest rainfall occurred on the 15th, at which time over one inch was reported from several stations.

The snowfall was very light. The greatest totals for the month were Blue Knob, 16 inches; Greenville, 11 inches; Honesdale, 10 inches;

Eagles Mere, 8 inches, and Somerset, 7 inches. Several stations report none during the month.

Wind and Weather.

The prevailing wind was from the west and northwest. On account of the high temperature the weather was favorable for outdoor pursuits. Building operations have scarcely been interupted on account of cold.

Average number.—Rainy days, 14; clear days, 7; fair days, 8; cloudy days, 16.

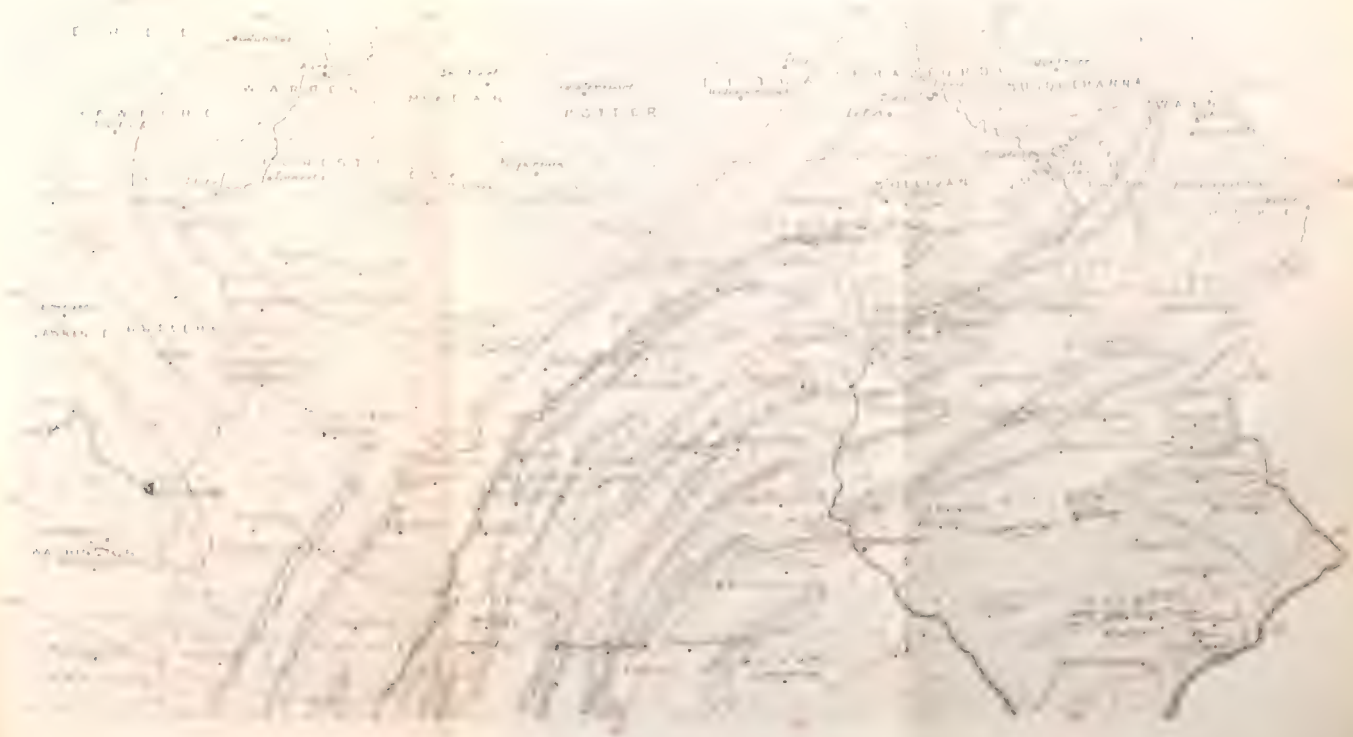
SHOWING THE

NORMAL TEMPERATURE OF PENNSYLVANIA FOR FEBRUARY



MEAN TEMPERATURE AND RAINFALL FOR FEBRUARY, 1866

Monthly Weather Review for February, 1890.

Hall of the Franklin Institute,
Philadelphia, *February 28, 1890.*

Temperature.

The mean temperature of sixty-four stations for February, 1890, was 37°. 1, which is about 8° above the normal, and 14° above the corresponding month of 1889. The mean of the daily maximum and minimum temperature 45°.7 and 28°.2 give an average daily range of 17°.5, and a monthly mean of 37°.0.

Highest monthly means, 42°.1 at Uniontown, and 41°.4 at Philadelphia.

Lowest monthly means, 30°.2 at Dyberry, and 32°.2 at Le Roy.

Highest and lowest temperature recorded during the month, 79°.0 at New Bloomfield, on the 26th, and zero at Dyberry, on the 23d.

Greatest local monthly range, 24°.7 at Phillipsburg.

Least local monthly range. 11°.1 at Swarthmore.

Greatest daily range, 42° at Dyberry and Honesdale on the 23d.

Least daily range, 2° at Le Roy, 19th; Rimersburg, 15th; Annville, 4th, and Columbus, 12th.

Barometer.

The mean pressure for the month was 30.10, which is nearly normal.

The highest observed was 30.606 at Philadelphia on the 7th, and the lowest 29.485, on the 14th, at Greenville.

Precipitation.

The average rainfall [including melted snow] was 4.32 inches for 62 stations. This is nearly normal, and the distribution was evenly divided.

While the snowfall was light, it was greater during February than in any of the past winter months. Several stations report snow on the 1st, 2d, 7th, 8th, 9th, 11th, 19th, 20th, 21st and 22d. The average total depth for fifty-four stations was 5.56 inches. Owing to the warm weather, it remained on the ground but a short time.

Wind and Weather.

The prevailing wind was from the west.

The weather was unusually warm, and all early vegetation was brought forward to a very advanced stage. Winter grain is reported in an excellent condition and uninjured by frosts.

SHOWING THE

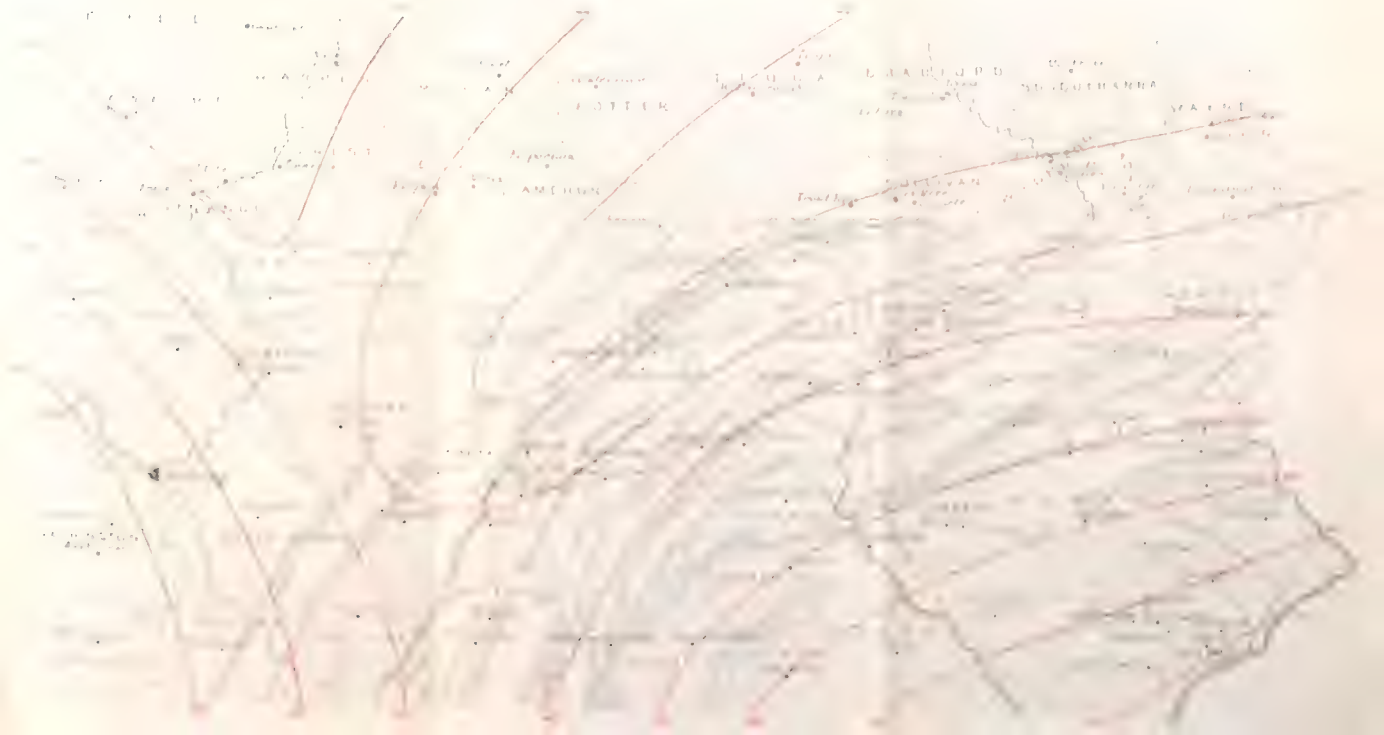
NORMAL TEMPERATURE OF PENNSYLVANIA FOR APRIL



MEAN TEMPERATURE AND RAINFALL FOR APRIL 1900

Monthly Weather Review for April, 1890.

Hall of the Franklin Institute,
Philadelphia, *April 30, 1890.*

Temperature.

The mean temperature of sixty-seven stations for April, 1890, was 48°.7, which is about 3° above the normal.

The mean of the daily maximum and minimum temperatures 61°.2 and 36°.0 give an average daily range of 25°.2, and a monthly mean of 48°.6.

Highest monthly mean, 53°.7 at Annville.

Lowest monthly mean, 43°.4 at Dyberry and Phillipsburg.

Highest temperature recorded during the month, 85° on 12th, at Lewistown and Lynnport.

Lowest temperature, 12° at Charlesville and Columbus, on the 1st.

Greatest local monthly range, 44°.1 at Somerset.

Least local monthly range, 16°.7 at Eagles Mere.

Greatest daily range, 60° at Ligonier on 17th.

Least daily range, 1° at Annville on 25th.

The warmest day of the month was on the 12th. On this day twenty-five stations recorded a temperature of over 80°.

The coldest was on the 1st and 2d, when fifteen stations recorded a temperature below 20°.

Barometer.

The mean pressure for the month 30.12, is about .12 above the normal.

The highest observed was 30.67 at Philadelphia and Eagles Mere on the 2d.

The lowest was 29.317, at York, on the 18th.

Precipitation.

The average rainfall [including melted snow] was 3.46 inches which is an excess of about three-quarters of an inch. Rain was of almost daily occurrence from the first to the 10th, and from the 23d to the 30th inclusive. During the interval of twelve days, from the 10th to the 23d, there was almost a total absence.

The largest totals for the month in inches were Blue Knob, 5.50; Altoona, 5.29; Hollidaysburg, 4.96; Huntingdon, 4.91; Pittsburgh, 4.87; and Columbus, 4.65.

The least were Lynnport, 1.75, and South Eaton, 1.81.

Twenty-four stations reported snow in measurable quantities. The largest total for the month was three inches at Mauch Chunk and Centre Valley. None on the ground at the end of the month.

Wind and Weather.

The prevailing wind was from the northwest. The weather was favorable during the entire month for the growth of grass and grain. Very little damage was done by frosts.

ISOTHERMAL LINES

SHOWING THE

NORMAL TEMPERATURE OF PENNSYLVANIA FOR JUNE

Monthly Weather Review for May, 1890.

Hall of the Franklin Institute,
Philadelphia, *May 31, 1890.*

Temperature.

The mean temperature of fifty-nine stations for May, 1890, was 58°.8, which is about 1° below the normal.

The mean of the daily maximum and minimum temperature 69°.6 and 47°.4 give an average daily range of 22°.2, and a monthly mean of 58°.5.

Highest monthly mean, 63°.9 at Annville.

Lowest monthly mean, 52°.5 at Eagles Mere.

Highest temperature recorded during the month, 89° on 31st, at Wilkes-Barre.

Lowest temperature, 23° on the 1st at Nisbet.

Greatest local monthly range, 31°.7 at Selinsgrove.

Least local monthly range, 15° at Eagles Mere.

Greatest daily range, 48° at Lewistown on 13th.

Least daily range, 1° at Le Roy on 30th.

From January 1, 1890, to May 31, 1890, the excess in temperature at Philadelphia was 650°, and at Erie 383°.

Barometer.

The mean pressure for the month, 29.96, is about normal. At the U. S. Signal Service stations, the highest observed was 30.31 at Philadelphia on the 22d and the lowest 29.60 at Harrisburg on the 5th.

Precipitation.

The average precipitation, 6.71 inches, is an excess of three and one half inches. Rains were of almost daily occurrence in some parts of the state. The 17th, 28th and 29th were the only days on which no rain was reported. The largest monthly totals in inches were: Girardville, 12.41; Emporium, 9.61; Eagles Mere, 8.97; Somerset, 8.90; Mauch Chunk, 8.11; Gettysburg, 8.10, and Uniontown, 8.03. The least was Philadelphia, 2.96.

Wind and Weather.

The prevailing wind was from the west. On the 10th, about 5 P. M., a tornado passed over the southern part of Franklin county, doing considerable damage. The weather during the month was excessively wet. The ground was saturated and cold, and caused much delay in plowing and seeding. Average number: Rainy days, 15; clear days, 7; fair days, 11; cloudy days, 13.

MEAN TEMPERATURE AND RAINFALL FOR JUNE, 1899

MEAN TEMPERATURE AND RAINFALL FOR JUNE, 1899

Monthly Weather Review for June, 1890.

Hall of the Franklin Institute.
Philadelphia, *June 30, 1890.*

Temperature.

The mean temperature of fifty-eight stations for June, 1890, was 70°.3, which is about 2° above the normal, and 3°.8 above the corresponding month of 1889.

The mean of the daily maximum and minimum temperatures 81°.8 and 58°.4 give an average daily range of 23°.4, and a monthly mean of 70°.1.

Highest monthly mean, 73°.7 at Uniontown and Huntingdon.

Lowest monthly mean, 64°.2 at Dyberry.

Highest temperature recorded during the month, 97° on the 5th, at Carlisle, and 30th, at Lynnport.

Lowest temperature, 33° on the 14th, at Charlesville.

Greatest local monthly range, 31°.3 at Wilkes-Barre.

Least local monthly range, 14°.0 at Erie.

Greatest daily range, 47° at Lock Haven on 25th.

Least daily range, 2° at Wellsboro on 21st.

From January 1, 1890, to June 30, 1890, the excess in temperature at Philadelphia was 71°.4, at Erie 42°.1 and at Pittsburgh 68°.5.

Barometer.

The mean pressure for the month, 30.00, is about .03 above the normal. At the U. S. Signal Service stations, the highest observed was 30.38 at Pittsburgh on the 9th, and the lowest 29.71 at Erie on the 12th.

Precipitation.

The average rainfall, 3.42 inches, is a deficiency of nearly a half inch. Owing to the local thunder-storms the fall was somewhat unevenly distributed, but the difference was not great when compared in large areas.

The largest totals reported in inches were Forks of Neshaminy 5.74, Columbus 5.66, Mauch Chunk 5.25 and Wilkes-Barre 5.07.

The smallest were Philadelphia 1.30 and Selinsgrove 1.36.

The heaviest general rains occurred on the 6th, 11th, 12th, 13th, 21st, 22d and 23d.

Wind and Weather.

The prevailing direction of wind was from the west. Thunder-storms were frequent and caused numerous losses to life and property. The weather was seasonable for growth, although the month was characterized by cool nights. A few light frosts occured in the northern counties.

Average number: Rainy days, 9; clear days, 12; fair days, 11; cloudy days, 7.

Note.—*This number of the Monthly Weather Review completes the serial maps of "Isothermal Lines Showing the Normal Temperature of Pennsylvania" for each month of the year. They will not be reproduced in future numbers. The "Mean Temperature and Rainfall" maps, however, will be continued as heretofore.*

MONTHLY WEATHER REVIEW FOR JULY, 1890.

HALL OF THE FRANKLIN INTTITUTE,
PHILADELPHIA, *July 31, 1890.*

Temperature.

The mean temperature of fifty-nine stations for July, 1890, was 70°.8, which is about 1°.5 below the normal, and 1°.4 below the corresponding month of 1889.

The mean of the daily maximum and minimum temperatures 82°.3 and 59°.1 give an average daily range of 23°.2, and a monthly mean of 70°.7.

Highest monthly mean, 75°.1 at Rimersburg.

Lowest monthly mean, 64°.8 at Dyberry.

Highest temperature recorded during the month, 101° on the 8th, at Carlisle and York.

Lowest temperature, 33°, on the 6th at Huntingdon.

Greatest local monthly range, 33°.0 at Huntingdon.

Least local monthly range, 14°.9 at Rimersburg.

Greatest daily range, 56° at Huntingdon on 7th.

Least daily range, 3° at Selinsgrove on 2d, and Ligonier on 9th.

From January 1, 1890, to July 31, 1890, the excess in temperature at Philadelphia was 666°, at Erie 382° and at Pittsburgh 682°.

Barometer.

The mean pressure for the month, 30.03, is about .07 above the normal. At the United States Signal Service stations, the highest observed was 30.31 at Erie on the 21st, and the lowest 29.716 at Philadelphia on the 3d.

Precipitation.

The average rainfall, 3.52 inches, for the month is a deficiency of over a half inch. The distribution was unequally divided, and in some sections growing crops suffered from drouth.

The largest monthly totals in inches were Lynnport, 6.40; Girardville, 6.36, and West Chester, 6.27.

The least were Phillipsburg, 0.74, and Erie, 0.76.

Wind and Weather.

The prevailing direction of wind was from the west. The month was characterized by extremes of heat and cold. Several stations reported light frosts on the 21st. The weather was favorable for the harvesting of grass and grain, and unusually large crops of hay were secured.

Average number: Rainy days, 8; clear days, 13; fair days, 11; cloudy days, 7.

MEAN TEMPERATURE AND RAINFALL FOR JULY 1870

Monthly Weather Review for August, 1890.

Hall of the Franklin Institute.
Philadelphia, *August 31, 1890*

Temperature.

The mean temperature of fifty-eight stations for August, 1890, was 68°.4, which is about 2°.0 below the normal and 1°.1 above the corresponding month of 1889.

The mean of the daily maximum and minimum temperatures 79°.2 and 58°.5 gives an average daily range of 20°.7, and a monthly mean of 68°.8.

Highest monthly mean, 73°.6 at Philadelphia.

Lowest monthly mean, 60°.1 at Wellsboro'.

Highest temperature recorded during the month, 98° on the 3d at New Castle, and on the 6th at Gettysburg.

Lowest temperature, 34° on the 24th at Somerset.

Greatest local monthly range, 29°.5 at Huntingdon.

Least local monthly range, 13°.0 at Erie.

Greatest daily range, 47° at New Castle on the 16th.

Least daily range, 2°.0 at Grampian Hills on the 21st.

From January 1, 1890, to August 31, 1890, the excess in temperature at Philadelphia was 670°, at Erie 276° and at Pittsburgh 659°.

The warmest period of the month was from the 1st to the 4th, inclusive, and on the 17th, 18th and 19th. The coldest was on the 24th and 31st.

Light frosts were reported in several of the elevated districts on the twenty-fourth.

Barometer.

The mean pressure for the month, 30.03, is about .05 above the normal. At the U. S. Signal Service stations, the highest observed was 30.28 at Pittsburgh on the 24th, and the lowest 29.680 at Philadelphia on the 27th.

Precipitation.

The average rainfall, 5.76 inches for the month, is an excess of over 1.50 inches. The distribution was unevenly divided.

The largest monthly totals in inches were Carlisle, 9.65; Ligonier, 9.37; Gettysburg, 8.95; Mauch Chunk, 8.59; Uniontown, 8.44.

The smallest were Charlesville, 2,58, Philadelphia, 3.36; New Castle, 3.69; Pottstown, 3.80; Lock Haven, 3.83; Hollidaysburg, 3.87, and Meadville, 3.94.

Rains were of almost daily occurrence in some parts of the state. The heaviest occurred on the 8th, 18th, 19th, 20th, 21st, 22d, 26th and 27th.

On the 8th, Gettysburg reports a fall of 4.98 inches, and Carlisle 3.04 inches.

Wind and Weather.

The prevailing wind was from the west.

Local storms of great severity were numerous and destructive to life and property. The most notable occured on the 19th, when, at about 5.12 P. M., a terrific tornado from the southwest passed over Wilkes-Barre. Sixteen persons were killed, and the damage to property is estimated at one million of dollars.

MEAN TEMPERATURE AND RAINFALL FOR SEPTEMBER, 1899

Monthly Weather Review for September, 1890.

Hall of the Franklin Institute,
Philadelphia, *September 30, 1890.*

Temperature.

The mean temperature of fifty-seven stations for September, 1890, was 62°.0, which is about 1°.0 above the normal, and 0°.1 above the corresponding month of 1889.

The mean of the daily maximum and minimum temperatures 72°.4 and 52°.1 give an average daily range of 20°.3, and a monthly mean of 62°.2.

Highest monthly mean, 67°.2 at Philadelphia.

Lowest monthly mean, 56°.4 at Wellsboro', Dyberry and Waynesburg.

Highest temperature recorded during the month, 91° on the 5th at Coatesville and Carlisle, and on the 7th at McConnellsburg.

Lowest temperature, 25° on the 25th at Dyberry.

Greatest local monthly range, 26°.4 at Phillipsburg.

Least local monthly range, 14°.0 at Erie.

Greatest daily range, 49°.0 at Huntingdon on the 20th.

Least daily range, 1°.0 at Drifton on the 11th, Selinsgrove 14th, and Columbus 27th.

From January 1, 1890, to September 30, 1890, the excess in temperature at Philadelphia was 681°, at Erie 183°, and at Pittsburgh 652°.

The warmest period of the month was from the 2d to the 8th, inclusive. The coldest was from the 25th to the end of the month.

Frosts were quite general on the 25th, 28th, 29th and 30th.

Barometer.

The mean pressure for the month, 30.135, is about .05 above the normal. At the U. S. Signal Service stations, the highest observed was 30.39 at Pittsburgh and Erie on the 28th, and the lowest 29.80 at Erie on the 13th.

Precipitation.

The average rainfall, 4.57 inches for the month, is an excess of one inch.

The largest monthly totals in inches were Ligonier, 8.54; Indiana, 8.10; Somerset, 7.84; Emporium, 7.91; New Castle, 7.48; and Columbus, 7.10.

The least were South Eaton, 2.05; State College, 2.29; Philadelphia, 2.31; Petersburg, 2.35; Wilkes-Barre, 2.42; Swarthmore, 2.62; McConnellsburg, 2.62 and Harrisburg, 2.89.

General rains occurred from the 11th to the 15th inclusive, and on the 26th and 27th. Excessive rains were reported from Wellsboro' on the 9th and 10th: Myerstown and Meadville on the 11th and 12th, and at York on the 12th and 13th.

NOTE.—An actual fall of 2.50 inches in any period of twenty-four hours, or one inch in one hour, is excessive precipitation.

Wind and Weather.

The prevailing wind was from the northwest. The weather was generally favorable for the harvesting and curing of late crops, and for fall seeding.

MEAN TEMPERATURE AND RAINFALL FOR NOVEMBER 1870

THE MEAN ANNUAL DISTRIBUTION OF HEAT IN PENNSYLVANIA
BY ISOTHERMAL LINES.

Monthly Weather Review for November, 1890.

Hall of the Franklin Institute,
Philadelphia, *November 30, 1890.*

Temperature.

The mean temperature of fifty-nine stations for November, 1890, was 41°.5, which is over 2°0 above the normal, and 0°.4 below the corresponding month of 1889.

The mean of the daily maxima and minima temperature, 50°.4 and 33°.1, give an average daily range of 17°.3, and a monthly mean of 41°.7.

Highest monthly mean, 47°.8 at Uniontown.

Lowest monthly mean, 34°.0 at Wilkes-Barre.

Highest temperature recorded during the month, 78.°0 on the 7th at Uniontown.

Lowest temperature, 10°.0 on the 29th at Wilkes-Barre.

Greatest local monthly range, 58° at Charlesville.

Least local monthly range, 42° at Catawissa, Harrisburg, Selinsgrove and Eagles Mere.

Greatest daily range, 47° at Charlesville on the 8th.

Least daily range, 1° at Rimersburg on the 26th, Clarion the 4th and Petersburg the 27th.

From January 1, 1890, to November 30, 1890, the excess in temperature at Philadelphia was 755°, at Erie 144° and at Pittsburgh 784°.

The coldest period of the month was on the 28th and 29th.

Barometer.

The mean pressure for the month, 30.08, is about 03 above the normal. At the U. S. Signal Service stations, the highest observed was 30.41 at Harrisburg on the 16th, and the lowest 29.53 at Erie on the 17th.

Precipitation.

The average rainfall, 1.49 inches for the month, is a deficiency of 2.00 inches.

The largest monthly totals in inches were Columbus, 4.29; Erie, 3.32; and Somerset, 3.00.

The least were Blue Knob, 0.78; Philadelphia, 0.80; York, 0.80; Bethlehem, 0.82; Wellsboro', 0.93; Forks of Neshaminy, 0.95; and Westtown, 0.97.

The heaviest rainfall occurred on the 17th. The snow fall was light, and at most stations too small for measurement. The largest totals were Blue Knob, 5.5 inches; Grampian Hills, 3.5 inches; and Columbus, 3.0 inches.

VITAL STATISTICS.

This bureau has been in existence since the passage of the act of June 3, 1885. Some of the difficulties encountered in the execution of the law establishing the State Weather Service Bureau are also met with in the management of this bureau. The authority and control are largely bestowed on the State Board of Health; the department furnishing only such clerical assistance as may be demanded by the secretary of the board. During the present administration there has been a registration of more than 10,000 physicians, of which proper record has been made. These returns have been secured largely through the energetic efforts of Dr. Lee, the secretary of the board. Some of the counties have not reported fully, and it has been found difficult to execute the law, because no provision has been made to compel the clerks of the different counties to make the returns, and no provision is made for the compensation for the necessary services needed in making up the returns.

On the blanks which have been furnished the clerks of the courts returns have been made from a portion of the counties of the number of marriages solemnized under the act of 1885. Some of the counties have made fairly complete returns; others for one or two quarters, and others have made no returns at all, entirely disregarding the law. The officers of the counties allege that as there is no compensation provided for the necessary services, they are not in duty bound to make reports. The attention of the legislature, at the last session, was called to the defects of the law establishing the bureau, and it was expected that some amend ment might be passed looking to its perfection. The failure to amend the law has, during this year, made it impossible to collect a sufficient amount of returns, as to marriages, or the registration of physicians, to be of any great value. Indeed, the return of marriages during the year were so meager that the law seems to be a dead letter. No compilations or deductions can be made from either the returns of physicians, or the registration of physicians, that would be of any practical value.

Eight counties, viz: Jefferson, Lancaster, Lebanon, Philadelphia, Potter, Schuylkill, Wayne and Westmoreland reported the names of 344 physicians and surgeons for registry during the year.

Nine counties, viz: Beaver, Cameron, Clearfield, Fayette, Greene, Jefferson, McKean, Potter and Wayne reported the number of 2,384 marriages.

Clearfield and Fayette counties reported for the entire year; the balance of those mentioned reporting for fractions of the year.

BUREAU OF ASSESSMENTS.

The question of taxation is one in which every citizen of Pennsylvania is deeply interested. From the fact that this subject is at present being very widely discussed by the people of the state, the department has endeavored to lay the question as thoroughly before them as the limited means of collecting statistics will permit.

Reports were received from every county in the state, except that of Monroe, and all reasonable efforts were made to secure a report from that county, but in vain. The last communication sent to the Monroe commissioners in regard to their report was a telegram, to which a reply was made that the report would be sent very soon. This occurred months after the report was due. Nothing has been heard from them since. As the reader will readily observe, the returns from some of the counties are not as complete as they should be, yet we are glad to say that a marked improvement is noticeable in this respect from year to year.

Elsewhere in this report, in the division of assessment reports, will be found tabular statements giving the following information from the several counties:

1. The number of taxables.
2. The number of acres of cleared land.
3. The number of acres of timbered land.
4. Value of all real estate as returned by the assessors.
5. Value of all real estate exempt from taxation.
6. Value of all real estate taxable.
7. Number and value of horses, mares, geldings and mules over the age of four years.
8. Number and value of neat cattle over the age of four years.
9. Value of salaries and emoluments of office, offices, posts of profit, professions, trades and occupations.
10. Aggregate value of all property taxable for county purposes.
11. Aggregate amount of county tax assessed.
12. Amount of money at interest including mortgages, judgments, bonds, notes, stocks, etc.
13. Value of stages, omnibuses, hacks, cabs, etc.
14. Aggregate value of property taxable for state purposes at the rate of three mills on the dollar, including money at interest, stages, omnibuses, hacks, cabs, etc.

15. Aggregate amount of state tax assessed.

16. Debt of each county.

It has been the duty and aim of the bureau of assessments to procure from the county commissioners the information outlined above; to examine and verify these statistics, and prepare them for publication in the Annual Report of the Department of Internal Affairs. Following these tabular statements will be found a comparative and consolidated statement, compiled from the annual reports received from the various counties, for the years of 1889 and 1890. This statement gives the totals of each county on the above enumerated subjects, and also the aggregate of the entire state, and cannot fail to be fraught with interest to all who are concerned in the question of taxation.

The reports from the several counties of the state, for this year, gen erally show a marked increase in the amount and value of the subjects referred to, over those of the year 1889, although there are some decreases which seem difficult to explain. The total number of taxables in the entire state as returned in 1889 was 1,473,480, while that of 1890 is 1,445,175, showing a decrease of 28,305 in one year. It is proper to add that nearly every county shows an increase, such as might be expected from the growing population of the state, except Philadelphia. This county, in 1889, reported its number of taxables at 311,951, while the return for this year gives the total as 248,288 This shows a decrease of 63,663 taxables in one year in a city whose population is rapidly increasing. The total population of the state, according to the census of 1890, is 5,258,014, while the entire number of taxables in the state is reported at 1,445,175. But no report was made from Monroe county, and no report of the number of taxables from Huntingdon county. Supposing that these counties have the same number of taxables that they had last year, we have about three and six-tenths inhabitants for each taxable.

The counties which, according to their population, reported the greatest increase in the number of taxables are Allegheny, Blair, Lackawanna and Luzerne, while Crawford, Dauphin, Perry, Somerset and Union return exactly the same number of taxables that they returned a year ago.

There should naturally be an increase in the number of acres of cleared land, and a corresponding decrease in the number of acres of timbered land each year. But last year the cleared land was reported at 15,004,962 acres, while this year it is reported at 13,885,471 acres, showing a decrease of 1,129,491 acres. The timbered land as reported last year was 8,594,420 acres, while this year it is 7,467,965½ acres, showing a decrease of 1,126,455 acres. The whole amount of cleared and timbered land in the state, by actual survey, is 28,808,442 acres, while the total number of acres returned by the assessors as cleared and timbered land is 21,353,436 acres, leaving an apparent discrepancy of 7, 455,006 acres. This can probably be accounted for from the fact that the counties of

Delaware, Franklin, Huntingdon, Luzerne, Lycoming, McKean, Monroe, Philadelphia and Venango made no returns of land, and Allegheny and Greene counties made no return of timbered land. Just what proportion of these seven millions of acres of land, not reported in the returns, is cleared or timbered cannot, of course, be determined.

The total value of all real estate in the commonwealth has increased from $1,443,399,250 to $2,183,904,386, an increase of $740,505,136. It is fair to remark, however, that this increase is due to the fact that Philadelphia made no return as to this subject last year, while this year a total for that county was formulated by adding the value of the real estate taxed to the value of the real estate exempt from taxation. The counties of Bucks, Franklin and Monroe made no returns under this heading. The counties of Bucks, Cambria, Crawford, Franklin, Fulton, Mifflin, Monroe, Snyder and Union have made no returns this year of the value of real estate exempt from taxation. The amount has, therefore, decreased from $201,369,848, the aggregate of last year, to $200,527,596 for the present year. The decrease is $824,252.

The value of real estate taxable was reported from every county last year, and from all but Monroe this year. Last year it was $2,002,942,-127, while this year it has increased $33,927,305, the aggregate for this year being $2,036,869,432.

There is an increase of 12,572 in the number of horses, etc., reported as subject to taxation, and an increase of $454,172 in their aggregate value. Last year the average value of horses was $63.50, while this year it is $62.90. The number of cattle has increased 8,206, and their aggregated value has increased $151,996. The average value is substantially the same as last year.

The total value of salaries, emoluments of office, etc., has increased from $74,466,965 to $76,723,291.

There is a decrease of $62,753,743, in the aggregate value of property taxable for county purposes. Last year it was $2,121,653,452, while this year it is $2,058,899,709. Philadelphia increased $19,205,954, but from many of the rural counties there is reported a small decrease.

There is an increase over last year in the aggregate amount of county tax assessed of $1,702,036.03.

It is the sworn duty of the triennial assessors, when estimating the value of all property for the purpose of levying county tax, to "assess and value every separate lot, or piece, or tract of land, with the improvements thereon, at the rate or price which they, after due examination and consideration, believe the same would sell for, if sold singly and separately, at a *bona fide* sale, after full public notice." Yet in many of the counties the real estate is evidently assessed at about one-third of its value, and there are but few counties where any effort has apparently been made to correct this illegal mode of rating property. This under-valuation might not work much injustice to the taxpayer, if all assessment districts of each county would adopt a uniform

rate of valuation. It is evident from the rates of taxation in the different counties that the rate of valuation differs widely. It may be reasonably presumed, that to some extent, at least, a similar disparity exists in the assessed value of property in the different assessment districts of the same county.

The county tax assessed in Montgomery county with $70,000,000 of a valuation, is nine thousand dollars less than the assessment in Westmoreland county, on $29,000,000 of a valuation. It is evident that in Montgomery county an effort has been made to obey the law regulating valuation. In Allegheny county the rate of assessment is 3 mills on the dollar; in Blair, 2½; in Centre, 2; in Cambria, 15; in Bucks, 2; in Huntingdon, 10; in Carbon, 9; in Cameron, 12½; in Clarion, 12½; in Clearfield, 7; in Columbia, 2½; in Erie, 2; in Delaware, 3½; in Greene, 4; in Luzerne, 6; in Montgomery, 2; in Somerset, 6; in Susquehanna, 10; in Westmoreland, 5; in York, 3½.

The amount of property returned as taxable for state purposes, at the rate of three mills on the dollar, including money at interest, stages, omnibuses, etc., has shown a healthy increase. Last year, with returns from every county, the aggregate was $448,537,130. This year, with no report from Monroe, and none on this subject from Potter county, the aggregate in the state is $571,599,715, showing an increase of $123,062,585.

The following counties have made the greatest increase in this direction:

Allegheny, 1889,	$39,610,759
1890,	43,234,778
Increase,	$3,624,019
Dauphin, 1889,	$4,504,793
1890,	6,860,373
Increase,	$2,355,580
Erie, 1889,	$6,634,553
1890,	8,384,367
Increase,	$1,749,814
Fayette, 1889,	$2,567,124
1890,	3,993,490
Increase,	$1,426,366
Philadelphia, 1889,	$185,386,669
1890,	285,624,757
Increase,	$100,238,106

There is a large increase in the amout of money reported at interest. In 1889 the amount reported was $447,939,612, while this year it is $512,049,908, an increase of 64,110,296. In 1885 the Legislature provided a more efficient means for compelling a true return of money at interest. This brought about a marvelous increase in the amount returned to the assessor, as will be seen by reference to the following figures:

Amount returned in	1885,	$130,035,214
" "	1886,	363,432,730
" "	1887,	375,763,936
" "	1888,	431,111,181
" "	1889,	448,537,130
" "	1890,	571,599,715

In the matter of county indebtedness the return is not as complete as it should be, some few counties, with large debts, having made no report on this matter whatever, although expressly asked to do so. Forty-six counties have reported debts aggregating $58,979,992.02, while last year the aggregate reported was $64,477,980,63.

The detailed reports of the commissioners on assessments are found in Part II of this report.

TAX RETURNS.

Under the act approved May 19, 1889, provision was made for the collection of statistics which would indicate, first, the total amount of tax collected for the support of the poor; second, the total amount collected for the construction and repairs of roads and bridges; third, the amount collected on personal property, occupations and for licenses; fourth, the amount collected on real estate of railway corporations; fifth, the amount collected on real estate of corporations other than railways.

The act imposed upon the county commissioners the duty of collecting, from the several assessment districtst, he returns indicated above, and provided a penalty for the withholding of information relating to the subjects referred to. Immediately after the passage of the act the department provided the necessary blanks and made an effort to secure the returns for the year 1889; but much difficulty was encountered in the attempt to enforce the law for that year, for the reason that it was the first year in which the act was in force and the commissioners found it difficult to make the assessors and collectors understand just what was required. In many cases the commissioners reported that it was impossible to gather the information. In other cases they were enabled to secure returns from a portion of the districts. We succeeded in obtaining complete or partial returns from forty-four of the sixty-seven counties for the year 1889, and they were published in Parts I and II of the department report. While it must be admitted that these returns were very incomplete, they nevertheless furnished an accumulation of testimony on the tax question, that had never before been available, for the use of revenue commissions, or other persons having to deal with the tax question. For the year closing with the 30th of November, 1890, returns somewhat more complete have been received, but from only forty-two counties. The act referred to provided that the expense of the collections of these statistics should be met by the commonwealth, but as the appropriation committee of the session of 1889 failed to make any provision therefor, the commissioners in some instances absolutely refused to discharge the duties imposed upon them. The department gave as much assurance as it could that the expenses incurred would be provided for by the legislature of 1891, and in consequence of this encouragement we have been enabled to secure fairly complete returns from forty-two counties. Some of the counties that reported in 1889 failed to report in 1890. They are Armstrong, Berks,

Crawford, Lackawanna, Schuylkill, Union, Venango, Warren and Westmoreland. Others that failed to report in 1889 reported in 1890. These were Cambria, Cameron, Lancaster, Luzerne, Montour, Northumberland and Sullivan. It may be a question whether there ought to be comparisons made of the returns of 1890 with those of 1889, for the reason that some of the counties that report for one year do not report for the other. However, we have made some deductions from the figures which we give to the public for what they are worth. In 1889 the total amount of tax collected for all purposes, including the amount worked out for the maintenance of roads, bridges, etc., and the school tax and licenses, was $29,326,912.61. In 1890 it was $29,372,378.32, an increase of $45,467.71. In 1889 the amount collected for the support of the poor was $1,665,948.34. In 1890, $1,593,197.67, a decrease of $72,750.67. In 1889 the amount of tax collected for the construction and repairs of roads and bridges was $4,742,701.30. In 1890, $4.992,434.67, an increase of $249,733.37. This marked increase is probably due to the great destruction of bridges and roads wrought by the floods of 1888. In 1889 the amount of tax collected on personal property was $1,248,256.61. In 1890, $1,886,366.84, an increase of $538,110.23. Under the head of licenses, which includes not only liquor licenses but all licenses, the amount returned in 1889 was $2,025,622.22. In 1890, $2,242,011.39, an increase of $216,389.17. The amount of tax collected on real estate of railway corporations for 1889 was $520,099.82. In 1890, $504,186.90, a decrease of $15,912.92. The tax collected in 1889 from corporations other than railways, was $649,517.64. In 1890, $918,091.98, an increase of $268,574.34. It, of course, is understood that corporations pay nearly all their taxes directly into the state treasury, and that the amount so paid is in addition to the amount paid locally. The total amount of tax collected on limited partnerships is about the same in 1890 as in 1889, to wit, $127,561. To enable the department to comply thoroughly with the provisions of the act referred to an annual appropriation should be made to cover the necessary expenses of these collections. Without such an appropriation the act must soon become a dead-letter. The detailed reports of the commissioners will be found in Part II of this report immediately following the detailed reports of the commissioners on assesments.

BUREAU OF INDUSTRIAL STATISTICS.

The report of this bureau is published in a separate volume and designated as Part III of this department.

BUREAU OF RAILROADS, CANALS, TELEGRAPHS AND TELEPHONES.

All corporations of the commonwealth operating railroad, canal, telegraph and telephone lines are required to make annual detailed reports to this department, showing the capital subscribed and paid in, the indebtedness, amount of business done, rates of transportation, amount of tonnage, cost of operation and maintenance, percentage and amount of dividends, number of accidents (with extent of injuries) to employès, passengers and others, and many additional facts of public interest; all of which are embraced in Part IV of the annual report of this department.

A penalty of five thousand dollars may be imposed upon any corporation that fails to make report, in pursuance of the law, of the facts above enumerated.

APPENDIX.

Board of Property.

A Board of Property, consisting of the Attorney General, Secretary of the Commonwealth and Secretary of Internal Affairs, is authorized by law.

Its powers are to "hear and determine in all cases of controversy on caveats, in all matters of difficulty or irregularity, touching escheats, warrants on escheats, warrants to agree, rights of pre-emption, promises, imperfect titles, or otherwise, which may arise in transacting the business of the said Land Office."

The present Board consists of

William U. Hensel, *Attorney General.*

William F. Harrity, *Secretary of the Commonwealth.*

Thomas J. Stewart, *Secretary of Internal Affairs.*

Stated meetings of the Board will be held on the Wednesday following the third Tuesday of each alternate month of the year 1891, to wit: January 21, March 18, May 20, July 22, September 16 and November 18.

Regulations.

I. A caveat may be entered against the granting of a warrant, acceptance of a survey or granting of a patent. It must be in writing and addressed to the Secretary of Internal Affairs. A particular form is not required; but the application, survey or other office right against which it is entered, together with the reason for filing the same, should be distinctly stated.

II. A caveat entered against the granting of a warrant on any application on file bars the issuing of a warrrant, unless, after hearing upon a citation, the Board should dismiss the same.

III. No caveat, note on survey, nor writing in the nature of a caveat, shall continue to bar the issuing of a patent to the person or persons against whom such caveat may be entered during a longer period than two years, unless the parties interested in the land shall within the term mentioned take out a citation thereon, in order to bring such dispute to a decision and prosecute the same to effect.

IV. A citation will be issued on a pending caveat on the application of any party in interest. Thirty days' notice must be given to the opposite party of the time at which the case will be heard by the Board,

and either party desiring to take the depositions of witnesses to be read at the hearing is required to give the other ten days' notice of the time and place for taking such depositions.

V. The party who enters a caveat becomes plaintiff in the issue joined, and at the hearing shall open the case and may make the concluding argument.

VI. A petition for the rehearing of a case that has been heard and decided will not be considered unless the party presenting the same shall furnish evidence that the opposite party has had at least ten days' notice of the intention to present said petition.

VII. A petition for an order of re-survey must recite the name of the warrantee and date of warrant upon which the former survey was made, and state the reasons for such re-surveys.

VIII. Depositions of witnesses submitted to the Board become a part of the record and cannot be withdrawn.

IX. Citations must be returned to the Department of Internal Affairs on or before the days fixed therein for the hearing of the cases in which they are issued. All acceptances of notice and agreements to continue cases must be in writing.

X. Parties will be heard in person, or may be represented by counsel, as they may elect.

XI. The fees to be charged for the use of the commonwealth in business relating to the Board are as follows:

Entering caveat,	$1 00
Issuing citation,	1 00
Recording application for re-survey,	1 00
Order of re-survey,	1 00
Copy of action or determination of Board,	1 00

XII. All communications for the Board should be addressed to the Secretary of Internal Affairs.

Warrants and Surveys.

A warrant or order of survey authorizes the survey of vacant lands only, as they alone belong to the commonwealth to grant; but whether the lands applied for are vacant or not, the land officers do not undertake to examine, and in most instances do not possess the means of ascertaining. Of this the applicant must judge for himself. If he know them to be appropriated by prior right, it is against conscience to take out a warrant for them or to have them surveyed as vacant. But he may assert the invalidity of a former grant and insist on a survey. In that case the deputy surveyor ought, if it be known to him, to note it in his books and return of survey.

Returns of Surveys.—Having finished the survey and plotted it, the surveyor ought to return it to the office of the Secretary of Internal Affairs. This is an important part of his duty. Many regulations and

laws have from time to time required it, and from its omission frequent disputes have occurred. The deputy surveyor, however, is not obliged to return the survey until his fees and expenses are paid; and if the failure to return is occasioned by the neglect or refusal of the party to defray them, any loss thereby sustained is imputable to him, and not to the officer. The regulation of the proprietaries and the acts of assembly concur in directing the return to be made on paying for the survey. * * * * If the party pay or tender the fees, it is the duty of the surveyor to return the survey in a convenient time, and the neglect or fraud of the surveyor will not affect his rights. But it lies on the party to show that the want of the return was not occasioned by any fault or neglect of his own; and, if there is nothing to show that the surveying fees were paid, the inference is that they were not paid. The deputy, being a sworn officer, is, *prima facie*, presumed to have done his duty.

Patents.

A patent is a deed from the commonwealth, under its great seal, conveying to the grantee all its rights in the land, describing it by metes and bounds, and it passes, as respects the commonwealth, the complete legal title; all the preparatory measures of warrant, application, survey and acceptance being merged in the patent. The granting of a patent is *prima facie* evidence that all the previous requisites have been complied with. Before a patent can be issued the purchase money due, and the patent fee, must be paid; and the land is thenceforth discharged from the lien which till then existed. Generally, the rights of the grantee are concluded by the lines and boundaries described in the patent, though perhaps in a special case there might be an exception.

Third persons claiming by warrant, application, settlement or otherwise, may show that the patent was wrongfully issued to the patentee; or, rather, that he is trustee for him who has the right, the material consideration being, not who has the patent, but to whom it ought to have been granted—for the land officers, in issuing the patent, act merely in a ministerial capacity, and cannot change the rules of law or rights of parties. And even though he who has the patent sell to a *bona fide* purchaser without notice, the vendee is in no better situation. His claim under the patent may be contested by one having a better right by settlement, warrant or location. These titles are not equities within the ordinary rule of being unavailing against a purchaser of the legal title. A patent founded on a fraudulent survey, or obtained by misrepresentation and deceit, is void against third persons affected by it.

A patent, however, has always been received in evidence in the first instance, to show that the legal title was out of the commonwealth. The question whether it is good is a subsequent one.—*Sergeant's Land Laws, p. 155.*

The following regulations, relative to issuing patents, are published for the information and guidance of owners of unpatented lands:

1. The patent must issue to the actual owner of the land, or party holding title under the warrantee, or to the executors, trustees, or heirs and legal representatives of the person in whom title was vested at death, or to the guardians of minor children of the deceased.

2. Warrantees who remain the owners of the land warranted and surveyed to them can obtain patents in their own names (if no caveat remains undetermined), without furnishing any brief or statement of title, upon payment of back purchase money, interest and fees.

3. Executors, trustees and guardians representing the warrantee, or his heirs, who apply for patents, must produce evidence of their appointment as such.

4. When the land has passed out of the ownership of the original warrantee, or party who took out the office right, the applicant for patent will be required to furnish evidence of ownership.

5. The present owner of a part of a tract of land surveyed in pursuance of any given warrant, desiring to have a patent in his own name, can obtain it by having the county surveyor make return of survey of such part. In making the survey, the county surveyor must, besides giving the courses and distances and quantity of acres, in the particular part, indicate the residue of the original tract by dotted lines. The applicant will only be required to pay his proportion of the whole amount due on the tract, with fees. Evidence of ownership must accompany application.

6. When an unpatented original tract has been sold and sub-divided the several present owners may unite in an application and statement of title for a patent, and, upon payment of amount due, with patent and other fees, a patent will issue to them, the said applicants, their heirs and assigns, according to their respective rights and interests, without setting forth therein the particular interest of each.

7. In cases where it is difficult to submit the evidence of title required by this department, in order to obtain a patent, any one or more of the owners of the unpatented tract can, through this department, discharge the lien against said tract by the payment of the purchase money, interest and fees, shown to be due by the land lien docket, and the interest since accrued, and a patent can at any time afterward be issued to those entitled to it, upon proof of ownership.

8. The accounts in the lien dockets are calculated to June 1, 1868. If to the amount due, as shown in its proper column, there be added the interest accruing from June 1, 1868, to the date of forwarding the docket to the prothonotary, at the rate given in the column of rate per cent. of interest, and on this sum interest be calculated at the rate of six per cent. from the time of forwarding the docket until the date of the application for patent, it will give the amount required to procure a patent.

(See 2d sec. of the act of the 20th of May, 1864, printed on a subsequent page.) But interest is not charged on patent or other fees. (See act of the 5th of May, 1871.)

A statement of the amount due on any particular tract or tracts, or any other information in relation thereto, will be promptly furnished on application to this department.

Persons sending money to the Department of Internal Affairs for payment of arrears on unpatented lands and for records, etc., should send by registered letter, postal order, or express. Drafts, checks, or post office money orders must be made payable to the order of the Secretary of Internal Affairs.

Miscellaneous.

The indorsement, similar to this, "Returned, etc., February 22, 1815," frequently found on copies of warrants and surveys, does not mean the date at which the return or survey was received at this office, but the date at which the Surveyor General made a return of the tract to the Secretary of the Land Office for patenting. And when such indorsement is found on the back of a copy of a warrant or survey, even at the date at which the office of the Secretary of the Land Office was discontinued, it is an evidence, in perhaps ninety-nine cases out of one hundred, that the tract is patented. Some exceptions have been found. Why the custom of marking the warrants and surveys thus, was introduced when a tract was patented, after the office of the Secretary of the Land Office was abolished, on the 10th of May, 1844, is not apparent. This custom was discontinued on the 1st of January, 1868, and the indorsement, "Patented to ————, 18—," was substituted.

A mistaken idea, prevalent with many people not familiar with the Land Office, is that the department has connected drafts, showing the location of every tract of land surveyed in the several counties, and that, therefore, whatever of vacant land there may be in the state can be readily found at this office, and that information can, without difficulty, be given as to the adjoining surveys of any named tract, without advising the department of the names and dates of the warrants upon which such surveys were made. Had the lands of the commonwealth been first surveyed and afterwards sold, this idea would have been correct, but the very reverse was the fact, for the lands were sold and warrants for subsequent surveys issued. And, because of this policy, the department has only single and unconnected copies of the surveys. Unless a given survey calls for warrantee adjoiners, it would be a work altogether out of proportion to the fees allowed to undertake to search out all the warrants and surveys, perhaps for a whole county, in order to find the adjoining tracts, or search for a supposed vacant piece of land; but the task is comparatively easy when the party seeking the inform

ation learns, as he readily can from the county surveyor, or prsons in the neighborhood, the names of all the surrounding warrantees and dates of warrants, and communicates that data to this department.

It will be observed, from the foregoing, that in communication with the department, it is of the first importance to give the name of the warrantee and date of warrant of the survey or patent about which inquiry is made; but when the date of warrant cannot be given, the party asking for official copies or information should give quantity of acres, location, the warrantee name of adjoining tract, or tracts, and any other data in his possession that will aid in searching for the tract.

Frequently applications for warrants for land, made out in due form, are sent to the department unaccompanied by the purchase money and warrant fee, and as warrants cannot issue until the proper amount of money has been paid into the state treasury, and, until all the requirements of the law have been complied with, the applications thus made gain no priority over others that may be made for the same lands.

The law does not contemplate that credit should be given on account of fees for searches and official copies; and, therefore, to save correspondence and insure more speedy attention, the proper amount of fees should be sent with each order. If too much is forwarded, the surplus will be promptly returned, with the official papers asked for.

INSTRUCTION TO COUNTY SURVEYORS.

I. Execution of Warrants.

1. You shall faithfully execute every warrant that may be directed to you from this department, to the best of your skill, knowledge and understanding, *according to the express words* and order of such warrant, and not otherwise.*

2. You shall not make use of any chain-carriers but such as are of good character, who shall take a solemn oath (which you are authorized by law to administer) justly and exactly to execute their trust, without favor, partiality or affection.†

3. You will not, under any circumstances, execute new warrants upon lands heretofore surveyed on old warrants or orders, but report, as nearly as possible, the circumstances relating to the same. And before you make return of any lands surveyed by you on new warrants, endeavor to be satisfied that no warrant of an earlier date has been issued for the same land; and on your return, certify whether the lands have been improved, and, if so, for how many years.‡

4. You must not execute a warrant on any other land than that which it particularly describes; and in order that your return of survey may show that the warrant has been properly executed, it will be necessary for you to be particularly observant of the *adjoiners mentioned in the warrant;*

* ¶ 1 of instructions of the Commissioners of Property to Isaac Taylor, Proprietary's surveyor for the county of Chester, signed by said Taylor, on the 28th of eleventh month, 1701.

† ¶ 6 of same.

‡ Adopted February, 1796.

and where there has been any change in them between the issuing and executing of the warrant, it must be noted in your return of survey.*

5. You will be particularly careful in executing warrants granted after the 1st day of June, 1814, and not founded on actual settlement, not to interfere with the rights of settlers; and in all cases where an actual resident settlement is included, note on your return whether it was commenced prior or subsequent to the 28th day of March, 1814.†

6. You shall not make return of any survey but such as has actually been made on the ground; and you shall take care that all outlines and boundaries shall be fairly and visibly marked before you quit the field.‡

II. Returns of Surveys.

7. You are to make a separate return of survey on each warrant or order issued from this Department within six months after the receipt thereof. §

8. Each return of survey must conform with the following requirements, to wit:

I. The paper or parchment used must be of the dimensions of at least eight by twelve inches.

II. It must contain a protracted figure of the land, exactly performed, with the field work annexed.§

III. All streams of water, roads, railroads, canals, township or county lines intersecting or crossing the lines of the survey must be distinctly and visibly marked on the draft at the very place of intersection or crossing, and the distance from the corners expressed in figures on the lines crossed.‖

IV. The lines of so much of the adjacent surveys as may serve to show their connection with the survey returned must be represented on the draft by dotted lines.**

V. When a survey is bounded by a creek or river, the bearings and distances of the several meanderings must be given.††

VI. Note, whenever they can be obtained, the *warrantee* names of adjoining tracts, as well as the names of the present owners thereof should be given.

VII. The certificate on each return of survey must be made in accordance with the proper form, as printed in the annual reports of the department.

††From ¶ 3 of instructions issued in 1796.

9. When you return a survey of a part of a tract of land for patenting, you must specify the name of the warrantee, the date of the warrant and the number of acres contained in the whole tract, and on the draft represent the residue of the tract by dotted lines.* But you are, in no event, to make and return to this department a "resurvey" of a tract, either to include more land or to exclude any part, or in anywise alter the original boundary lines thereof, *unless authorized to do so by an order of the Board of Property.* When an order of resurvey has been issued, and sent to you for execution, you are strictly to follow the directions therein contained.

10. You may make official returns of surveys actually made by your predecessors, after having satisfied yourself of their correctness, and that they have been located according to the calls of the warrants.†

11. Surveys intended to be returned to this department must be made or approved by you.

12. You may survey and return any surplus not exceeding one hundred acres above the quantity mentioned in the warrant, location, or order of survey. The purchase money for all the surplus land surveyed on warrants must be first paid into the state treasury before the return of survey can be accepted in this department, of which you will give notice to the owner or owners of such warrant, and always send the money to pay the excess with the return of the survey.‡

13. All returns of survey, in order to conform with the files of the department, should be folded as follows: Double the sheet by bringing the upper and lower edges of the sheet evenly together, then fold in each side so as to make a form about two and seven-eighth inches wide, and in length from six to seven inches, according to the size of the sheet. The back of the return should be left blank.

14. With each return of survey send a copy of the tabling and calculation thereof on a separate piece of paper.§

15. All returns to this department must be under cover, directed to the Secretary of Internal Affairs, with your name subscribed on the back of the paper or envelope inclosing the same.‖

III. Office Duties.

16. You will keep your office open for the reception of all warrants directed to you, which shall be entered in a book kept for that purpose, designating therein the name of the warrantee, quantity of land granted, date of warrant, and the day when you received it. Also, in another book, you will keep fair and regular entries, in order of time, of all sur-

veys and resurveys made by you in pursuance of any warrant or order of survey which you may receive, with a draft or plot thereof, and a copy of the field notes. And the Secretary of Internal Affairs shall, from time to time, have free access to said books of entry and to all other papers relating to your office, which books and papers shall be delivered by you to your successor.*

17. Under the provisions of the constitution of 1873, you are required to keep your office at the county town; but if you desire letters sent to any other address, advise this department.

18. Before you can enter upon the duties of your office, you must comply with the seventh section of the act of assembly passed the 9th day of April, 1850, which requires you to take an oath or affirmation, which must be administered in the open court of quarter sessions;† to send a copy of said oath, duly certified, to this department; and to have your bond approved by the court, and recorded in the office for recording deeds in the proper county, and to forward the same to the Secretary of the Commonwealth, with one dollar, the fee for filing in his office.

* ¶ VIII of the instructions of 1765.

† Constitution, Art. VII, Sec. 1, requires oath of all county officers to be filed in the office of the prothonotary of the proper county.

RECENT LEGISLATION RELATING TO THE LAND OFFICE.

County Surveyors.

Their Duties.

Under the proprietary government, deputy surveyors were appointed by the Proprietary, the Commissioners of Property, or the Surveyor General, for certain districts, and given authority to execute warrants or orders, by making surveys and returns thereof to the Land Office. The duties of these deputies were defined by letters of instructions, issued from time to time. Those dated the 28th of eleventh month, 1701, revised and enlarged in 1765, contain such directions as were then deemed necessary for the information and guidance of the deputies, and formed the basis of those now in force. The act of assembly of the 9th of April, 1781, establishing the Land Office under the commonwealth, authorized the Surveyor General to appoint a deputy or deputies in any county of the state, who should have power to make and return into the Land Office surveys of land only in the county for which such deputy or deputies shall be appointed; and the act of 1st April, 1784, by virtue of which the Land Office was opened on the 1st day of July following for the sale of the vacant lands of the commonwealth, directed that its several officers should transact the business of the Land Office, agreeably to the former customs and usages thereof. By subsequent legislation, the duties of the deputies were more clearly defined. The act of 9th April, 1850 [P. L. 434], authorized the voters of each county, at the following general election, and every third year thereafter, to elect one competent person, a practical surveyor, to act as county surveyor for the proper county for the term of three years, who is required to do and perform all the duties which then pertained to the respective deputies of the Surveyor General.

Term of Office.

[Constitution, Art. XIV.]

Section 1. County officers shall consist of sheriffs, coroners, prothonotaries, registers of wills, recorders of deeds, commissioners, treasurers, surveyors, auditors or controllers, clerks of the courts, district attorneys and such others as may, from time to time, be established by law. * *

Section 2. County officers shall be elected at the general elections,

and shall hold their offices for the term of three years, beginning on the first Monday of January next after their election, and until their successors shall be duly qualified; all vacancies not otherwise provided for shall be filled in such manner as may be provided by law.

To Keep Office in the County Town.

SECTION 4. Prothonotaries, clerks of the courts, recorders of deeds, registers of wills, county surveyors and sheriffs shall keep their offices, in the county town in which they respectively shall be officers.

To Hold Office until Successor is Qualified.

[Act of 17th April, 1869. P. L. 67.]

A supplement to an act entitled "An act relative to the election of Auditor General, Surveyor General, and county surveyors by the people," approved April ninth, one thousand eight hundred and fifty.

SECTION 1. That the persons now or hereafter holding the office of county surveyor shall continue to hold and exercise all the duties appertaining to said office until their successors are duly qualified according to the provisions of the act to which this is a supplement.

Fees.

[Act of 13th April, 1859. P. L. 606.]

An act relating to the fees of county surveyors.

SECTION 1. That the several county surveyors of this commonwealth shall be and are hereby authorized to charge and receive for the services hereinafter mentioned the following fees, and no more, to wit:

For receiving warrant and giving receipt for the same, if required,	$0 25
For executing warrant, not exceeding one hundred acres, ...	4 50
For each additional one hundred acres on same warrant, ...	75

For certifying survey made by deputy, ...	50
For each mile necessarily traveled in going to and returning from land, ...	10

EXCESS.

[Act of 21st April, 1860. P. L. 87.]

An act relative to returns of surveys to the office of the Surveyor General.

SECTION 1. That so much of the second section of the act approved the sixth day of April, Anno Domini one thousand eight hundred and thirty, as restricts returns of surveys on warrants thereafter to be issued

to an amount not greater than ten per centum beyond the number of acres for which the warrant issued, be and the same is hereby repealed: *Provided*, That any excess which may be returned under the provisions of prior laws shall be paid at the time of making such return of survey to the Surveyor General, otherwise the same shall not be accepted.

[Any surplus not exceeding one hundred acres may now be returned on any warrant or order of survey, provided that the money for such surplus accompanies the return. See paragraph 12 of "Instructions to County Surveyors]."

Fees.

[Act of 15th April, 1873. P. L., 75.]

An act relating to the fees of the Surveyor General.

Section 1. That from and after the passage of this act the fees to be collected by the Surveyor General for the use of the Commonwealth shall be as follows, namely:

[Act of 20th May, 1864. P. L. 914.]

An act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of locations or other office titles.

1. SECTION I. That it shall be the duty of the Surveyor General to make out a list of all lands held by location, or any other office right, issued from the Land Department of this commonwealth, of every kind and description, upon which no patents have issued, designating the county in which such lands are situated, with such other descriptions of

the same as the records of his office will enable him to give, including the names in which such locations or other office rights are entered, and surveys have been returned; and on the list being completed, or any part thereof, be transmitted to the prothonotary of the county in which such lands are situated.

2. Section II. That it shall be the duty of the Surveyor General to calculate the amount of purchase money, interest and fees, due on each unpatented tract; and after the descriptions of said tracts have been transmitted to the prothonotaries of the respective counties, and entered, as hereinafter provided, the amounts so found to be due, together with five dollars for the labor and costs of making out and filing, shall form an aggregate sum which shall be entered in a lien docket to be provided and kept for that purpose, and said sum shall bear interest at the rate of six per cent.

3. Section III. That it shall be the duty of the prothonotary of each county, upon receiving any descriptive list as aforesaid, to provide a suitable docket, with a proper index, for the purpose of recording all such descriptions of unpatented lands, and shall accurately record the same and index the name of the original warrantee or actual original settler, as the case may be, and each subsequent owner so far as ascertained, and preserve the same among the records of the county: *Provided*, That when any party in interest, by petition under oath or affirmation, setting out the facts in the case, as in affidavit of defense, shall represent to the president judge of the court of common pleas of the county, in which any tract or piece of land, against which the entry directed in the foregoing section has been made, or the principal part thereof, may lie, that said tract has been patented, either in the name against which the entry is made, or in any other name, the said judge shall, after such notice to the Surveyor General as he shall deem proper, proceed to hear the case of the petitioner; and the said judge shall, thereupon, make such decree in the premises, either by directing the said entry to be struck from the record, or such other order as to said entry, and also as to costs, as may seem equitable.

4. Section IV. That it shall be the duty of the prothonotary of each county, upon receiving from the Surveyor General any such list or calculation of amounts due the commonwealth for purchase money, interest, and fees, to provide a suitable docket with index, in the form of the lien dockets now in use in the several counties of this common wealth, to be styled "Lien Docket of Unpatented Lands," and enter therein the amount so found to be due, which sum shall remain a lien upon such tract or tracts, until paid; and that a fee of fifty cents be paid to the prothonotary for each description so entered, and that he be allowed the same fees on the liens entered, as are now allowed on judgments entered by warrant of attorney in the court of common pleas.

5. Section V. That it shall be the duty of the prothonotary, upon re-

ceiving any such descriptive list, to cause the same to be published in two newspapers in the county where such lands are located, for three successive weeks, for which publication he shall be authorized to pay fifty cents for each tract, and charge the same as costs on the lien docket, and retain his fees and costs out of any moneys, in his hands, due the commonwealth.

6. SECTION VI. The amounts which may be due to the commonwealth on the lands mentioned in the first section of this act, may be paid in accordance with the existing laws in relation to such lands, if the same be paid prior to the first day of November next: *Provided*, That any costs, which may have accrued in accordance with the provisions of this act, shall also be paid, and that the act to graduate lands on which money is due and unpaid to the Commonwealth of Pennsylvania, approved April tenth, Anno Domini one thousand eight hundred and thirty-five, be revived and continued in force, until the said first day of November next; and any survey and appraisements, made since the first day of August last, shall have the same validity for the issuing of patents thereon, as if the last mentioned law had been still in full force.

7. SECTION VII. That all liens due the commonwealth for unpatented lands, after the first day of November, Anno Domini one thousand eight hundred and sixty-four, may be proceeded upon by the Attorney General of the Commonwealth, in the manner directed to be pursued against defaulting public officers, by the act of April sixteenth, one thousand eight hundred and forty-five, and the supplement thereto.

8. SECTION VIII. All persons in the military or naval service of the United States, shall be allowed one year after the expiration of said service, for the taking out of any patent or patents under the provisions of this act.

9. SECTION IX.* That, hereafter, the patent fee, on town lots not exceeding one-fourth of an acre, shall be one dollar, and on lots not exceeding two acres, five dollars.

[Act of 4th April, 1868. P. L. 60.]

A supplement to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini eighteen hundred and sixty-four.

10. SECTION I. That in lieu of the descriptive lists provided for in said act, it shall be the duty of the Surveyor General to make out and forward to the prothonotaries of the several counties, lien dockets, to be styled "land lien dockets," containing lists of all unpatented and patented lands, situate in the counties respectively, upon which there is money due the commonwealth, and in all cases where surveys have been returned, to enter therein the amount of purchase money, interest, and all fees due, and said aggregate shall remain a lien on such tract until

*Section nine changed by act of April 15, 1873.

paid or otherwise legally discharged: *Provided*, That the several prothonotaries shall be allowed to charge the fees now authorized by law when any information shall be desired from said records, and for entering any certificate under the seal of the Surveyor General, setting forth that any lien or part of lien against an unpatented tract has been paid, shall charge the party presenting such certificate a fee of twenty-five cents for entering and filing the same.

11. Section II. That the fifth section of the act to which this is a supplement, and so much of said act as is inconsistent herewith, be and the same is hereby repealed.

[Act of 8th April, 1869. P. L. 21.]

An act directing public notice to be given when county land lien dockets are forwarded to the respective counties, and staying proceedings by the Attorney General for one year from the date of forwarding the same.

Whereas, The Surveyor General, at an early day, will be prepared to send out the county land lien dockets, containing accounts due the commonwealth on account of lands, prepared under the act approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four, and the supplement thereto, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight;

And whereas, It is proper that the people owing the state, for or on account of lands, should have notice when the liens therefor are entered in the counties, and that a reasonable time should be given to enable them to liquidate their indebtedness and obtain patents for their lands, before suits shall be brought in such cases by the Attorney General; therefore,

12. Section I. That when any county land lien docket, prepared under the foregoing acts, shall be forwarded to any county, the Surveyor General is hereby authorized and directed to cause a notice thereof to be given in one English newspaper, published at the county seat of such county, and also in one German newspaper, if there be one in said county, setting forth that the land lien docket for that county has been forwarded to the prothonotary thereof: *Provided*, That no greater sum than ten dollars shall be paid for such notice or advertisement for any one county; and on evidence being submitted to the Auditor General that such advertisement has been authorized by the Surveyor General, and inserted at the usual rates of advertising, he shall draw his warrant on the treasury in favor of the editor or publisher inserting the same.

13. Section II. That no suit or suits shall be entered or instituted by the Attorney General, under the provisions of the seventh section of the act of the twentieth of May, Anno Domini one thousand eight hundred and sixty-four, until one year shall have elapsed from the date at which the Surveyor General shall have forwarded to each county, respectively, the land lien docket for the same.

[Act of 15th April, 1869. P. L. 31.]

A further supplement to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of locations or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

WHEREAS, An examination of warrants and returns of survey show in many cases interferences in said returns, and in many instances where patents have issued on some of said surveys, there are balances due upon other warrants covering the same land; therefore,

14. SECTION I. That whenever satisfactory evidence shall be given to the Surveyor General that a lien or liens have been entered against lands for which the commonwealth has been fully paid, both for land and patent fees, he is hereby authorized, and it shall be his duty, to give to the party or parties applying for the same a release of said lien or liens, so far as said patented lands are concerned; which said release may be entered on the land lien docket, in accordance with the provisions of the supplement to the act of which this is a further supplement, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight.

[As many persons will apply for releases under the provisions of this law, it is deemed proper to state what will be regarded as satisfactory evidence by this department. Applicants, in order to avail themselves of the act, should cause a plot or survey of the patented tracts, and the unpatented interfering tracts (showing the manner in which, and to what extent they cover the same land), to be made by the county surveyor, who will certify that he has made the same at the request of A, B, and C—the owners of the patented tracts, or parts of tracts, or their agents or attorney—giving names of warrantees and dates of warrants and patents, and names and dates of warrants of the unpatented lands, and that he believes the interference or interferences to be as delineated by him. On a paper appended to the above plot of surveys, the applicant or applicants, his or their agent or attorney, will be required to make an affidavit that the interferences are believed to be as delineated by the county surveyor. A release will then be issued to the owner or owners of the patented tract or tracts, relieving them from any and all liability to pay the liens of the commonwealth entered against such interfering unpatented tract or tracts. Section seven of the act approved the 20th day of May, 1864, invested the Attorney General with authority to proceed against the owners of unpatented lands, to enforce the payment of the arrears of purchase money, interest and fees due the commonwealth on said lands. This power, by the following supplement, became vested in the Board of Property.]

[Act of 5th May, 1871. P. L. 261.]

A further supplement to an act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

15. SECTION I. That the Board of Property shall have full and discretionary power as to the time of entering suits and the number thereof, to be brought for the collection of liens against unpatented lands; and the Attorney General shall proceed, under the seventh section of the said act, to which this is a further supplement, when authorized to do so by the said Board: *Provided*, That no interest shall be charged on patent or other fees.

[Act of 11th April, 1872. P. L. 51.]

A further supplement to an act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of location or other office title, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

16. SECTION I. That for carrying into full effect the provisions of the act to which this is supplementary, it shall be the duty of the Surveyor General to make out and forward to the several county surveyors, respectively, from time to time, as the Board of Property may determine, special lists of warrantee names of unpatented tracts, or remaining parts of unpatented tracts, of lands within the several counties, as the same may appear upon the land lien dockets, with such other data relating thereto as he may deem necessary.

17. SECTION II. That it shall be the duty of the county surveyor of each county, to whom the Surveyor General may send special lists of warrantee names of unpatented tracts or parts of tracts of land, and other data relating thereto, situate in the county for which such surveyor shall have been elected or appointed, to endeavor to ascertain the names and residences of the owners, agents or occupiers, and location of said tracts or parts of tracts, or any of them, and to give personal notice in writing to said owners, agents or occupiers, that said tracts or parts of tracts are unpatented, and that unless the arrearages shall have been paid within six months from the time of sending or serving said notice, the Board of Property may direct proceedings to be commenced by the Attorney General to enforce payment, under the provisions of the act to which this is a further supplement: *Provided*, That when unpatented lands, as aforesaid, are occupied, and the owners are non-residents of the county, and have no known agent or agents within the county, the said notice may be given by sending it by mail, addressed to the owners or agents, and directed to the postoffice nearest their place of residence or usual place of business: *And provided further*, That when lands as aforesaid are unseated, and have been sold for taxes, and the time limited for their redemption has not expired, it shall be the duty of the county surveyor to give notice, in the manner hereinbe-

fore provided, to the purchasers or their agents, and also to the parties, or their agents, who last paid taxes thereon previous to the sale.

18. SECTION III. That it shall be the duty of the county surveyor to whom such special list shall have been sent as aforesaid to make a written report in duplicate, within three months, to the Surveyor General, filing a copy of the same in the prothonotary's office of each county, setting forth the names of warrantees, dates of warrants, location of tracts, and the names and residence of the owners, agents, or occupiers of the unpatented tracts or parts of tracts, upon whom he has served the notices as aforesaid, together with the manner of service; and for serving such notices on all the owners, agents, or occupiers of an original unpatented tract, or remaining part of an original unpatented tract, he shall be entitled to a fee of five dollars, to be paid out of the state treasury, on warrants drawn by the Auditor General, upon the certificate of the Surveyor General.

19. SECTION IV. That it shall be the duty of the county surveyor, upon the reasonable request of any owner, or his agent, of part of an original tract which has not been patented, to make and return a return of survey of such part to the Surveyor General, and for which service his fees shall be the same as for executing a warrant of survey, as now provided by law for the same quantity of acres.

20. SECTION V. That when any suits shall be entered by the Attorney General, under the act to which this is a further supplement, it shall be by *scire facias sur liens*, which shall be directed for service to the sheriff of the county in which the land is situate; and if he finds it necessary to insure a service of said writ, he may call to his aid the county surveyor, who shall act as his deputy, for the purpose of serving such writ; and all such writs shall be made returnable to the court of common pleas of the county wherein such lands are situate, where all such suits shall be tried.

SECRETARY OF INTERNAL AFFAIRS.

[Constitution, Art. IV.]

[Section I names the Secretary of Internal Affairs as one of the Executive Department, and section 9 constitutes him a member of the Board of Pardons.]

SECTION XIX. [I.] The Secretary of Internal Affairs shall exercise all the powers and perform all the duties of the Surveyor General, subject to such changes as shall be made by law. His department shall embrace

[II.] A Bureau of Industrial Statistics.

[III.] And he shall discharge such duties relating to corporations, to the charitable institutions, the agricultural, manufacturing, mining, mineral, timber and other material or business interests of the State as may be prescribed by law.

[IV.] He shall annually, and at such other times as may be required by law, make report to the General Assembly.

Section XXI. The term of the Secretary of Internal Affairs shall be four years. * * * * * * * *

[Art. XVII.]

Section XI. The existing powers and duties of the Auditor General in regard to railroads, canals and other transportation companies, except as to their accounts, are hereby transferred to the Secretary of Internal Affairs, who shall have a general supervision over them, subject to such regulations and alterations as shall be provided by law; and, in addition to the annual reports now required to be made, said Secretary may require special reports at any time upon any subject relating to the business of said companies from any officer or officers thereof.

[These provisions of the constitution are enforced by acts of assembly, passed in pursuance thereof, approved respectively on the 11th day of May, 1874, P. L. 135; the 15th day of May, 1874, P. L. 172 and 193, and by the following]:

[Act of 8th May, 1876. P. L. 143]

A further supplement to an act regulating the election of Secretary of Internal Affairs, defining his duties and fixing his salary, approved the eleventh day of May, Anno Domini one thousand eight hundred and seventy-four.

Section I. That the Secretary of Internal Affairs and his chief clerk, who shall hereafter be designated deputy secretary of internal affairs, shall have power and authority to administer oaths or affirmations in any or all matters pertaining to the business of his department.

Section II. All maps, drafts, reports and other papers relating to surveys of state or county lines, state or turnpike roads, railroads, canals, or other public improvements now remaining in the office of the Secretary of the Commonwealth, and not connected with the other records of his office, shall, as soon as practicable after the passage of this act, be transferred to the Secretary of Internal Affairs, who is hereby authorized and directed to receive and deposit the same in his department; and all such maps, drafts, reports and papers as are now by law required to be placed in the office of the Secretary of the Commonwealth, shall hereafter be deposited in the Department of Internal Affairs.

Section III. It shall be the duty of all commissions appointed to re-establish any of the boundary lines of this commonwealth, to erect a new county, or to annex part of one county to another county, to transmit a copy of their report to the Secretary of Internal Affairs, to be by him deposited in his department.

Section IV. It shall be the duty of all commissions appointed to resurvey, re-mark, alter, or change any county line, to deposit duplicate copies of their report in the office of the clerk of the court of quarter sessions of the proper county; and after the same has been confirmed

by said court, the said clerk shall, upon one of the copies, certify such confirmation, and immediately transmit the same by mail to the Secretary of Internal Affairs, to be by him deposited in his department.

SECTION V. Copies of all records, documents, entries and papers now in the Department of Internal Affairs, or that may be transferred thereto in pursuance of this act, or that may hereafter be deposited therein according to law, shall be made and certified at the request of any person applying for the same, on the payment of the same fees as was prescribed by the fee bill for similar services in the Surveyor General's office at the time the same was merged into said department, which fees shall be accounted for and paid into the treasury in the same manner as is now provided by law for other fees, to be collected by the said secretary; and the said copies shall be received in evidence in the several courts of this commonwealth, in all cases where the original records, documents, entries and papers would be admitted in evidence.

WARRANTS.

[Act of 14th April, 1874. P. L. 58.]

An act relative to the issuing of warrants to survey vacant lands.

SECTION I. That every applicant for a warrant to survey any of the vacant lands of this commonwealth shall produce to the Surveyor General a particular description of the land applied for, with an affidavit of a disinterested witness, made before a justice of the peace of the township or borough in which the land applied for, or the greater portion of it, is situate, or if there be no justice of the peace in such township or borough, before a justice of an adjoining township or borough, specifying whether the said land be improved or not, and if improved, how long since the said improvement was made, that interest may be charged as now provided by law. The applicant for such warrant shall declare, upon oath or affirmation, before a justice of the peace of the township or borough in which the land, or greater portion of the same, is situate, or if there be no justice in such township or borough, before a justice of an adjoining township or borough, that he verily believes that no warrant or other office right has previously issued for such land, or if one has issued, after giving full particulars in relation thereto, shall depose that he verily believes it has been abandoned; and if at any time thereafter it shall appear that the person or persons deposing, as aforesaid, or any of them, shall knowingly have sworn falsely, such person or persons shall suffer all the pains and penalties of perjury.

SECTION II. No warrant shall issue for any tract or piece of land on which settlement is made, or which may be either in whole or in part cleared and fenced, or otherwise improved, used or occupied and held by defined boundaries, unless to such person or persons, respectively,

who have made the settlement, clearing, fencing or improvement, their legal representatives or assigns, upon proof of ownership of such settlement or improvement right, and if any warrant shall issue otherwise than as aforesaid, it shall be void: *Provided*, That this section shall not apply to abandoned improvements.

SECTION III. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the Surveyor General, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate, and nearest its location, and shall furnish proof that such notice has been given before a warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property, and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant the purchase money shall be returned to the applicant.

SECTION IV. This act shall not apply to applications for warrants filed with the Surveyor General before its passage.

[Act of 23d of April, 1889. P. L. 46.]

An act to amend section three of an act approved the fourteenth day of April, one thousand eight hundred and seventy-four, entitled "An act relative to the issuing of warrants to survey vacant lands," providing for the payment of purchase money and fees due the commonwealth, and regulating the consideration of *caveats* filed against the granting of warrants.

SECTION 1. *Be it enacted, etc.*, That section three of the act approved the fourteenth day of April, one thousand eight hundred and seventy-four, entitled "An act relative to the issuing of warrants to survey vacant lands," which section provides as follows:

"SECTION 3. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant and depositing the amount of the purchase money and fee with the Surveyor General, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate and nearest its location, and shall furnish proof that such notice has been given before warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property; and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant, the purchase money shall be returned to the applicant," be and the same is hereby amended to read as follows:

SECTION 3. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the Secretary of Internal Affairs, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks in one or more newspapers of the county in which the land is situate and nearest its location, and shall furnish proof that such notice has been given before a warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the Board of Property; and if the Board of Property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant, the purchase money shall be returned to the applicant: *Provided*, That *caveats* presented by those who claim to have acquired title, by virtue of settlement and improvement rights, shall not be received as such, or prevent the granting of warrants unless the *caveator* shall deposit with the *caveat* the purchase money, interest, warrant and patent fees as provided by law, which purchase money and fees shall be retained as a deposit until a decision is had as to the respective rights of the parties, and if such decision be adverse to the *caveator*, then the money deposited shall be refunded on application made, and vouchers executed, as required by the Secretary of Internal Affairs: *Provided further*, That settlement and improvement rights shall only be acquired and recognized as such by an actual entry upon vacant land of the commonwealth, with the manifest intention of making it a place of abode, together with an actual improvement of the land by clearing and tilling the soil for the purpose of gaining support thereby, and also defining the limits of such claim by survey and well marked lines. No action at law shall be maintained by the person or persons claiming settlement and improvement rights, neither shall such person, or persons, be permitted to set up a defense based on such rights, unless the purchase money and fees aforesaid shall have been paid to the commonwealth. All acts or parts of acts inconsistent with the provisions of this amendment be and the same are hereby repealed.

Road taxes exceedingly heavy throughout the county on account of flood during the summer of 1889.

The personal tax is only the state personal, as no correct estimate could be given as the townships levy road, school, poor, etc., and the best I could do was to get the gross amounts and make the calculations from that.

The amount given in No. 1, is for all taxes levied, state, county, school, poor, road, etc.
